User Guide

Lenovo YB-Q501F

Lenovo YB-Q501L

Basics

Before using this information and the product it supports, be sure to read the following:

- *Safety, Warranty & Quick Start Guide*
- *Regulatory Notice*
- "Important safety and handling information" in "Appendix".

The *Safety, Warranty & Quick Start Guide* and the *Regulatory Notice* are available on the website at <http://support.lenovo.com>.

Note: All pictures and illustrations in this document are for your reference only and may differ from the final product.

Lenovo Companion

Looking for help? The Lenovo Companion app can offer you support for getting direct access to Lenovo's web assistance and forums*, frequent Q&A*, system upgrades*, hardware function tests, warranty status checks*, service requests**, and repair status**.

Note:

* *requires data network access.*

** *is not available in all countries.*

You have two ways to get this app:

- Search for and download the app from Google Play.

- Scan the following QR code with a Lenovo Android device.

Technical specifications

| | | |
|-------------------------------|--------------------------------------|---|
| Model | Lenovo YB-Q501F | Lenovo YB-Q501L |
| CPU | Intel® Atom™ x5-Z8550 Processor | Intel® Atom™ x5-Z8550 Processor |
| Battery | 10500mAh | 10500mAh |
| Wireless communication | Bluetooth 4.1; WLAN; GPS/GLONASS; | Bluetooth 4.1; WLAN; GPS/GLONASS; LTE/WCDMA/TD-SCDMA/GSM |

Note: Lenovo YB-Q501L supports LTE Band 1, 2, 3, 4, 5, 7, 8, 9, 12, 17, 18, 19, 20, 38, 39 and 40, but in some countries LTE is not supported. To know if your device works with LTE networks in your country, contact your carrier.

[Home screen](#)

The home screen is the starting point for using your device. For your convenience, the home screen is already set up with some useful apps and widgets.

Note: Your device's features and the home screen may be different depending on your location, language, carrier, and device model.

You can customize your home screen at any time.

- **Home screen**

On the home screen, there is a **Google** Search bar and some useful apps.

- **Preview screen**

Press and hold anywhere on the home screen except the icons, or press  in the top row of the keyboard.

At the bottom of the screen are **WALLPAPERS** and **WIDGETS**.

- **Add a widget to a home screen**

Tap  at the bottom of the preview screen, press and hold the widget you want to add, then drag it to where you want to place it and release.

- **Change the wallpaper**

Press and hold anywhere on the home screen except the icons, select **WALLPAPERS** at the bottom of the screen, and then choose the wallpaper that you like.

Go to  > **Settings** > **Display** > **Wallpaper** and choose the wallpaper that you like.

- **Move an app to another screen**

Press and hold an app that you want to move, drag it to the left or right side of the screen, then release it where you want to place it.

- **Uninstall an app**

1. Press and hold an app that you want to uninstall.

2. Drag to , and then release and tap **OK**.

Note: Some of the system apps cannot be uninstalled.

Taskbar

Buttons

There are four buttons in the taskbar.

- **Back button:** Tap  to return to the previous page.

- **Home button:** Tap  to return to the default home screen.

- **Recent button:** Tap  to see recent apps. Then you can do the following:
 - Tap an app to open it.
 - Swipe an app window up to close it.
 - Tap  to stop running all the apps.
- **App list button:** Tap  to display all apps on your tablet.

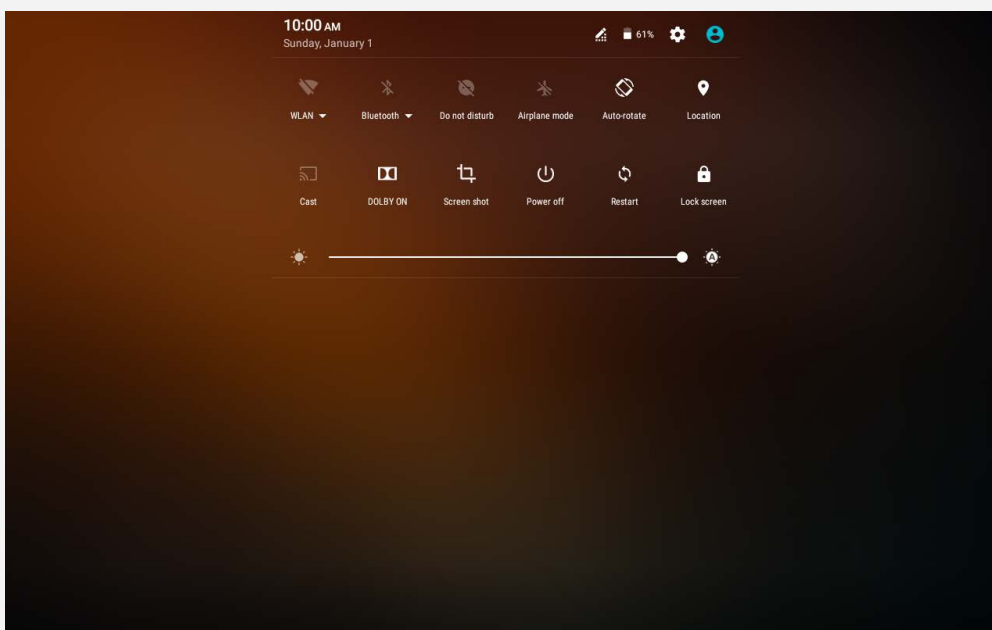

Customizing the taskbar

The recent app icons are displayed in the taskbar, you can do any of the following:

- To open an app, tap its icon.
- When the app icons cannot be completely displayed in the app list, **•••** will appear at the side of the taskbar. To see the hidden icons, slide left or right.
- To adjust the order of the icons in the taskbar, press and hold an app icon until it enlarges slightly, drag it to where you want to place it, and then release it.
- To close an app, press and hold an app icon until it enlarges slightly, drag it upward, and then release.

Notifications and Quick Settings

The Notifications panel informs you of new messages, USB connection, and activities in progress such as file downloading. The Quick Settings panel allows you to access frequently-used settings such as the WLAN switch.

You can do any of the following:

- To open the Notifications and Quick Settings panel, press **Ctrl+ ▼** simultaneously.
- To see notifications, swipe down from the top of the screen.
- To close the Notifications panel, swipe up from the bottom of the screen.
- To dismiss a notification, swipe left or right across the notification.
- To dismiss all notifications, tap  at the bottom of the Notifications panel.
- To open the Quick Settings panel, swipe down from the top of the screen twice.
- To close the Quick Settings panel, swipe up from the bottom of the screen.

Force shutdown

Press and hold the Power button for about 10 seconds until the device turns off.

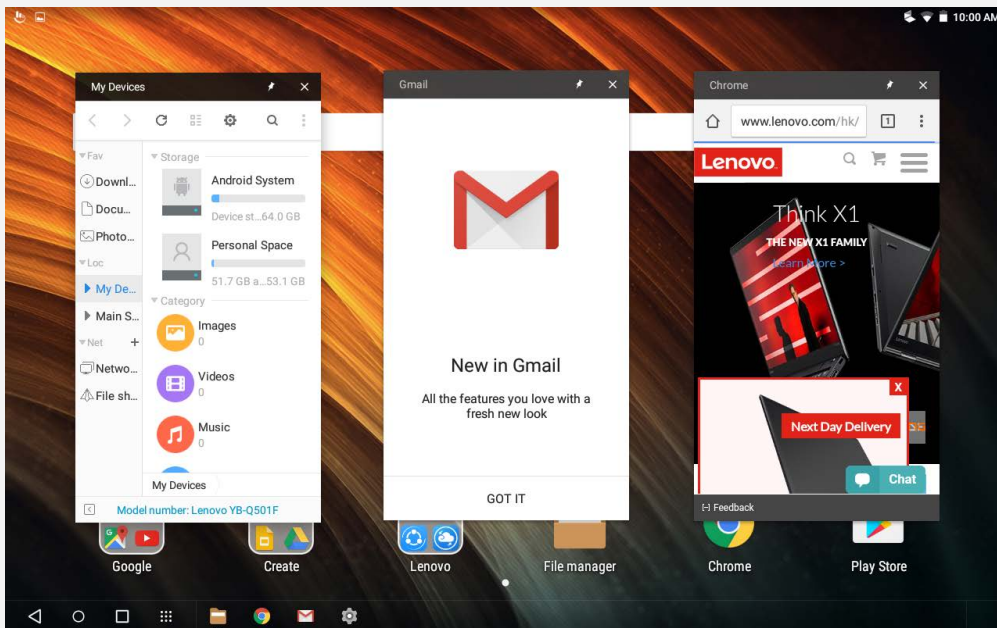

Multi-window mode

By using the multi-window function, you can run multiple apps on the screen simultaneously.

Note: Some apps may not support this feature.

Multi-window mode

Open an app, and then you can do any of the following:

- To switch between the multi-window mode and the full screen mode, double tap the title bar.
- To move a window, press and hold the title bar, drag it to where you want to place it, and then release it.
- To switch to the full screen mode, press and hold the title bar, and then drag it to the top of the screen.
- To minimize the window, tap the app icon in the taskbar. Tap the icon again to display the window.
- To pin or unpin the app, tap  or .
- To close the app, tap  or drag the window to **Close** at the bottom of the screen.

Halo Keyboard

Your tablet has a physical keyboard with backlights and a touchpad at the bottom edge. You can also perform some operations using the keyboard and touchpad, without the use of the touch screen.

Note: The layout of your keyboard may be different depending on your location.

Hotkeys

One key

To help you access frequently-used tasks quickly, special hotkeys are located on the top row of the keyboard.

| Key icon | Function |
|---|--|
|  | Mute the volume |
|  | Turn the volume down |
|  | Turn the volume up |
|  | Mute the microphone |
|  | Decrease the screen brightness |
|  | Increase the screen brightness |
|  | Open the Google search bar |
|  | Turn on the WLAN connection |
|  | Open all apps list |
|  | Change input methods/go to keyboard settings |
|  | Enter edit screen |
|  | Take screenshot |
| Space | When the screen is locked, press it to unlock the screen |

Hotkeys combinations

| Key icon | Function |
|-----------------|-----------------------------|
| Alt+F4 | Close current app |
| Alt+Tab | Switch between running apps |
| Ctrl+Alt+Delete | Lock screen |

Function key combinations

Through the use of the function keys, you can change operational features instantly. To use this function, press and hold **Fn** which is located on the last row of the keyboard; then press one of the function keys.

The following describes the features of each function key.

| Key icon | Function |
|----------|--|
| Fn+F1 | Turn on/off of the keyboard vibration |
| Fn+F5/F6 | Adjust the keyboard backlight brightness |
| Fn+Esc | Keep the Fn key enabled by default |

Keyboard settings

Changing your keyboard layout, input method and input language

Your keyboard layout may vary based on your location and language. To change your keyboard, do any of the following:

- Go to **Settings > Language & input > Halo Keyboard**, and then choose the keyboard you want. Or tap **SET UP KEYBOARD LAYOUTS**, choose the keyboard you want and add it to the layout list.
- Press **F10** to choose the input method.
- Press **Shift+Space** to switch between input languages.

Setting up your Halo Keyboard

- **Adjusting the brightness level**
 - Go to **Settings > Halo Keyboard > Brightness adjustment**.
 - Press **Fn+F5** to decrease the keyboard brightness.
 - Press **Fn+F6** to increase the keyboard brightness.

- **Silencing the keyboard**

- To turn on or off the touch tone when you type, tap the **Touch tone** switch.

- **Setting the keyboard vibration**

When you press the keys, you can feel slight vibration of the keyboard. Keyboard vibration is enabled by default.

- To set the vibration intensity, go to **Settings > Halo Keyboard > Vibration intensity**.
 - To turn keyboard vibration on or off, tap **Vibrate on keypress** switch, or press **Fn+F1**.

Using the touchpad

Your tablet has a touchpad at the bottom of the keyboard, which allows you to perform gestures such as tapping, scrolling, and dragging.

- To move the cursor on the screen, slide your finger over the touchpad in the direction you want.
- To tap on an app's icon, tap the touchpad.
- To scroll pages such as app lists, webpages, or documents, press the touchpad for 1 second and slide up or down with one finger.

Notes: To prevent unintentional operation, touchpad is disabled when typing on the keyboard. To activate the touchpad, tap in the center of the touchpad.

Setting up the touchpad

To set the pointer speed, go to **Settings > Language & input > Pointer speed**.

Positioning the display panel

The display panel can be opened to any angle up to 360 degrees.

Positioning the display panel

Rotate the display panel, and then you can do any of the following:

- **Type Mode**

Suitable for tasks that require the keyboard and touchpad (such as creating documents, writing emails, and so on).

- **Watch Mode**

Suitable for tasks that require limited interaction with the touch screen (such as viewing photos, watching videos, and so on).

- **Browse Mode**

Suitable for tasks that require frequent use of the touch screen (such as surfing the Web, playing games, and so on).

Note: Your Halo Keyboard will automatically turn off when its angle exceeds 180 degrees, preventing you from accidentally pressing the keys.

Network

You need to set up a wireless network before connecting to the Internet.

- Set up a WLAN network
- Set up a mobile network*
- Set up a VPN network

You can also set up a hotspot to share your mobile network with others.

Setting up a WLAN network

Go to  > **Settings** > **WLAN**.

Turn on the WLAN switch and tap a WLAN hotspot in the list to connect to the Internet.

When you are connecting to a secure hotspot, you need to enter your password to connect.

Setting up a mobile network*

Go to  > **Settings** > **Data usage**.

Note: You need a valid SIM card with a data service. If you don't have a SIM card, contact your carrier.

Setting up a VPN network

VPNs are used within organizations to allow you to communicate private information securely over a non-private network. You may need to configure a VPN, for example, to access your work email. Ask the network's administrator for the settings necessary to configure a VPN for your network.

- Go to  > **Settings** > **More** > **VPN**.
- Tap  to edit the VPN profile, including the server name, the type, and the server address, and then tap **SAVE**.
- Tap the VPN server name, input the username and password, and then tap **CONNECT** to connect to the VPN network.
- Tap  to edit or delete the VPN.

Note: You need to set a lock screen pattern, PIN or password before using a VPN. Go to **Settings** > **Security** > **Screen lock** to select a screen lock option and set up the screen lock.

Setting up a hotspot

You can use personal hotspot to share an Internet connection with a computer or other device.

Go to **Settings** > **More** > **Tethering & portable hotspot** and do the following:

- Turn on **Portable WLAN hotspot**.
- Tap **Set up WLAN hotspot** to configure the hotspot.

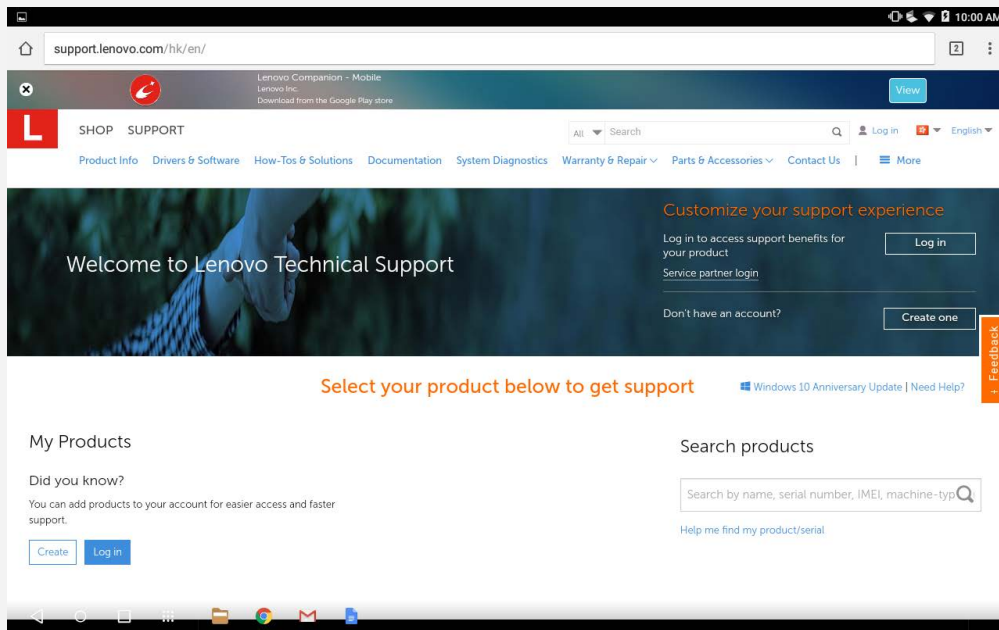

You can also use **Bluetooth tethering** or **USB tethering**.

Note: Tell your friends the Network name and password, and then they can share your mobile network.

Internet

You can browse the web if your device is connected to a wireless network or a cellular network.

To open the browser app, go to **Chrome**.

Visiting websites

You can use the **Chrome** app to visit websites.

- **Type a web address**

You don't need to type the full web address of a "http://" website to access it.

To visit "http://www.lenovo.com", simply type "www.lenovo.com" into the address bar and tap **Go** or press **Enter** key.

- **Search for keywords**

You can also type keywords into the address bar to search for webpages.

You can set a search engine in **⋮ > Settings > Search engine**.

- **Add a new webpage**

Tap **⋮ > New tab** to add a new webpage tab.

Tap **⋮ > New incognito tab** to visit a website without leaving any traces of your visit.

- **Close a webpage**

Tap **X** to close a webpage tab.

If **X** not appear in the page tab, you have to tap **1** first, which will open the webpage preview list.

- **Refresh a webpage**

Tap **↻** to refresh a webpage.

Tap  > **Recent tabs** to return to the previous webpage.

Tap  to go forward to a recent webpage.

Saving webpages

You can save images and webpages in your device's internal storage.

- **Save images**

Press and hold the image, then tap **Download image**.

- **Bookmark webpages**

Tap  to add a webpage to **Bookmarks**.

Tap  > **Bookmarks** to view bookmarks.

Setting accessibility preferences

Tap  > **Settings** > **Accessibility** to set the text scaling and the webpage zoom.

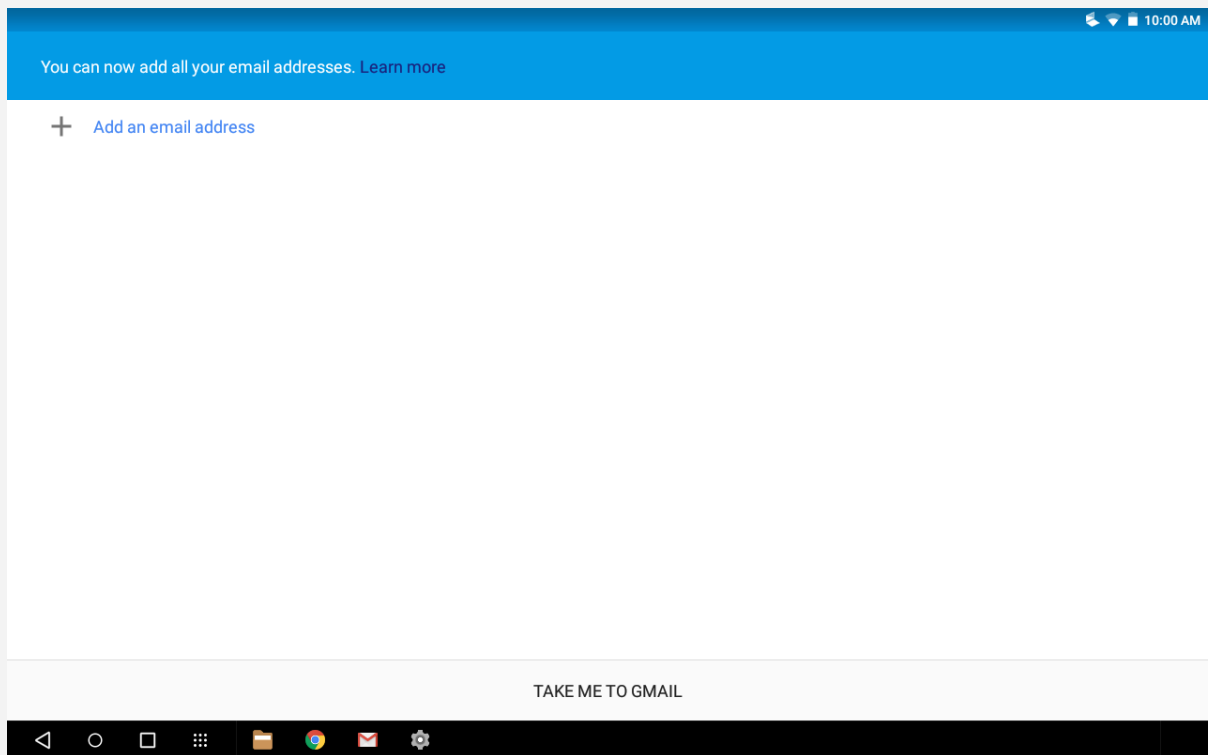

Email

You can send and receive emails if your device is connected to a wireless network. To access the **Email** app, go to **Email** or **Gmail**.

Setting up a Gmail account

You can sign into Gmail if you have a Gmail account. If not, you will need to create a Gmail account, and you can also sign in email accounts provided by other company.

Using Email

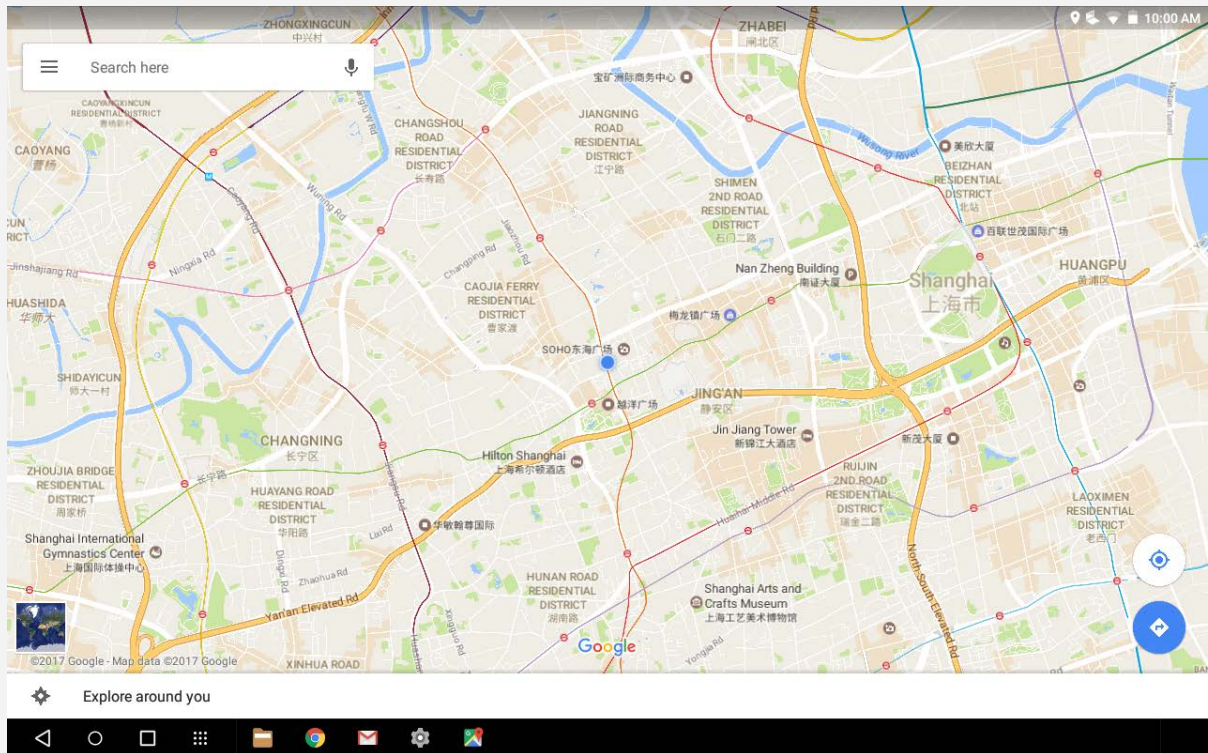

After setting up an email account you can use the **Email** or **Gmail** app to send and receive emails.

You need to select the following settings before you can use **Maps**.
Go to **Settings > Location** and enable location access for Google apps.

Finding a location

Type the address that you want to find, then press Enter.

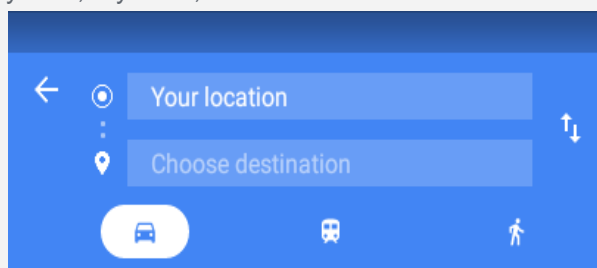

You can also tap , then say the address you want.

Current location

Tap  to see your current location.
Then tap **Explore around you** to check what is nearby.

Planning a route

Tap  and type in the "from" and "to" addresses, or just keep it as "from Your location".
Choose the travel mode: by car, by bus, or on foot.

Synchronizing

You can transfer data between your device and computer such as music, pictures, videos, documents, Android application package (APK) files, and so on.

Connecting your device to your computer

Connect your device and computer using a USB cable.

Slide down from the top of the screen, you will see "**USB for file transfer**" in the notifications bar.

Tap **USB for file transfer** for other options.

Selecting the computer connection mode

You can select one of the following options:

- **Charging:** Select this mode if you want to charge your phone only.
- **File transfers:** Select this mode if you want to transfer media files such as photos, videos, and ringtones between your tablet and the computer.
- **Photo transfers (PTP):** Select this mode if you only want to transfer only photos and videos between your tablet and the computer.
- **MIDI:** Select this mode if you want MIDI-enabled apps on your device to work with MIDI software on the computer.

Installing APKs

Follow these steps:

- You need to set the device to allow the installation of apps obtained from unknown sources.
- Go to **Settings > Security**, select **Unknown sources** and tap **OK**.
- Copy the APK file from the computer to the device in "**File transfers**" mode.
- Open the apps category in the **File manager**.

Appendix

Important safety and handling information

To avoid personal injury, property damage, or accidental damage to the product, read all of the information in this section before using the product. For additional tips to help you operate your device safely, go to <http://www.lenovo.com/safety>.

Handle your device with care

Do not drop, bend, or puncture your device; do not insert foreign objects into or place heavy objects on your device. Sensitive components inside might become damaged.

Your device screen is made of glass. The glass might break if the device is dropped on a hard surface, is subjected to a high impact, or is crushed by a heavy object. If the glass chips or cracks, do not touch the broken glass or attempt to remove it from the device. Stop using the device immediately and contact Lenovo technical support for repair, replacement, or disposal information.

When using your device, keep it away from hot or high-voltage environments, such as electrical appliances, electrical heating equipment, or electrical cooking equipment. Use your device only in the temperature range of 0°C (32°F) to 40°C (104°F) (storage -20°C (-4°F) to 60°C (140°F)) to avoid damage.

Don't expose your device to water, rain, extreme humidity, sweat or other liquids.

Do not disassemble or modify your device

Your device is a sealed unit. There are no end-user serviceable parts inside. All internal repairs must be done by a Lenovo-authorized repair facility or a Lenovo-authorized technician. Attempting to open or modify your device will void the warranty.

Built-in rechargeable battery notice

Do not attempt to replace the internal rechargeable lithium ion battery. There is risk of explosion if the battery is replaced with an incorrect type. Contact Lenovo Support for factory replacement.

Plastic bag notice

DANGER:

Plastic bags can be dangerous. Keep plastic bags away from babies and children to avoid danger of suffocation.

Adapter information

- **Prevent your device and AC adapter from getting wet.**

Do not immerse your device in water or leave your device in a location where it can come into contact with water or other liquids.

- **Use approved charging methods only.**

You can use any of the following charging methods to safely recharge the internal battery of your device:

| Charging method | Display on | Display off |
|-----------------|------------|-------------|
|-----------------|------------|-------------|

| | | |
|---|--|--|
| AC adapter | Supported, but the battery will charge slowly. | Supported |
| USB connection between the DC-in connector on the device and a USB connector on a personal computer or other device that complies with USB 2.0 standards. The device must be connected to a USB interface of USB 2.0 or higher. | Supported, but will compensate power consumption and the battery will charge more slowly than usual. | Supported, but the battery will charge slowly. |
| Notes: <ul style="list-style-type: none"> • Display on: Device on • Display off: Device off or in screen lock mode | | |

Charging devices might become warm during normal use. Ensure that you have adequate ventilation around the charging device. Unplug the charging device if any of the following occurs:

- The charging device has been exposed to rain, liquid, or excessive moisture.
- The charging device shows signs of physical damage.
- You want to clean the charging device.

Warning:

Lenovo is not responsible for the performance or safety of products not manufactured or approved by Lenovo. Use only approved Lenovo ac adapters and batteries.

Caution about high volume usage

Warning: exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the sound, the less time is required before your hearing could be affected.

To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

Take care when using your device in a motor vehicle or on a bicycle

Always prioritize your safety and the safety of others. Follow the law. Local laws and regulations might govern how you can use mobile electronic devices, such as your device, while you drive a motor vehicle or ride a bicycle.

Dispose according to local laws and regulations

When your device reaches the end of its useful life, do not crush, incinerate, immerse in water, or dispose of your device in any manner contrary to local laws and regulations. Some internal parts contain substances that can explode, leak, or have an adverse environmental effects if disposed of incorrectly.

See "Recycling and environmental information" for additional information.

Keep your device and accessories away from small children

Your device contains small parts that can be a choking hazard to small children. Additionally, the glass screen can break or crack if dropped on or thrown against a hard surface.

Protect your data and software

Do not delete unknown files or change the name of files or directories that were not created by you; otherwise, your device software might fail to work.

Be aware that accessing network resources can leave your device vulnerable to computer viruses, hackers, spyware, and other malicious activities that might damage your device, software, or data. It is your responsibility to ensure that you have adequate protection in the form of firewalls, antivirus software, and anti-spyware software and keep such software up to date.

Keep electrical appliances away from your device. These include electric fans, radios, high-powered speakers, air-conditioners, and microwave ovens. The strong magnetic fields generated by electrical appliances can damage the screen and the data on the device.

Be aware of heat generated by your device

When your device is turned on or the battery is charging, some parts might become hot. The temperature that they reach depends on the amount of system activity and the battery charge level. Extended contact with your body, even through clothing, could cause discomfort or even a skin burn. Avoid keeping your hands, your lap, or any other part of your body in contact with a hot section of the device for any extended time.

Electronic emission notices

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult an authorized dealer or service representative for help.

Lenovo is not responsible for any radio or television interference caused by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Responsible Party:

Lenovo (United States) Incorporated

1009 Think Place - Building One

Morrisville, NC 27560

Telephone: 1-919-294-5900

IC Caution

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

European Union-Compliance to the Electromagnetic Compatibility Directive

This product is in conformity with all the requirements and essential norms that apply to European Council Directive 1999/5/EC. European Council Directive 1999/5/EC remains in force during the transition period of European Council Directive 2014/53/EU, until June 12, 2017. Lenovo cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-recommended modification of the product, including the installation of option cards from other manufacturers. This product has been tested and found to comply with the limits for Class B Information Technology Equipment according to European Standard EN 55022. The limits for Class B equipment were derived for typical residential environments to provide reasonable protection against interference with licensed communication devices.

EU contact: Lenovo, Einsteinova 21, 851 01 Bratislava, Slovakia

German Class B compliance statement

Deutschsprachiger EU Hinweis:

Hinweis für Geräte der Klasse B EU-Richtlinie zur Elektromagnetischen Verträglichkeit Dieses Produkt entspricht den Schutzanforderungen der EU-Richtlinie 2014/30/EU (früher 2004/108/EC) zur Angleichung der Rechtsvorschriften über die elektromagnetische Verträglichkeit in den EU-Mitgliedsstaaten und hält die Grenzwerte der Klasse B der Norm gemäß Richtlinie. Um dieses sicherzustellen, sind die Geräte wie in den Handbüchern beschrieben zu installieren und zu betreiben. Des Weiteren dürfen auch nur von der Lenovo empfohlene Kabel angeschlossen werden. Lenovo übernimmt keine Verantwortung für die Einhaltung der Schutzanforderungen, wenn das Produkt ohne Zustimmung der Lenovo verändert bzw. wenn Erweiterungskomponenten von Fremdherstellern ohne Empfehlung der Lenovo gesteckt/eingebaut werden.

Deutschland:

Einhaltung des Gesetzes über die elektromagnetische Verträglichkeit von Betriebsmitteln Dieses Produkt entspricht dem „Gesetz über die elektromagnetische Verträglichkeit von Betriebsmitteln“ EMVG (früher „Gesetz über die elektromagnetische Verträglichkeit von Geräten“). Dies ist die Umsetzung der EMV EU-Richtlinie 2014/30/EU (früher 2004/108/EWG) in der Bundesrepublik Deutschland.

Zulassungsbescheinigung laut dem Deutschen Gesetz über die elektromagnetische Verträglichkeit von Betriebsmitteln, EMVG vom 20. Juli 2007 (früher Gesetz über die elektromagnetische Verträglichkeit von Geräten), bzw. der EMV EU Richtlinie 2014/30/EU (früher 2004/108/EC), für Geräte der Klasse B.

Dieses Gerät ist berechtigt, in Übereinstimmung mit dem Deutschen EMVG das EG-Konformitätszeichen - CE - zu führen. Verantwortlich für die Konformitätserklärung nach Paragraf 5 des EMVG ist die Lenovo (Deutschland) GmbH, Meitnerstr. 9, D-70563 Stuttgart.

Informationen in Hinsicht EMVG Paragraf 4 Abs. (1) 4:

Das Gerät erfüllt die Schutzanforderungen nach EN 55024 und EN 55022 Klasse B.

Environmental, recycling, and disposal information

General recycling statement

Lenovo encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. Lenovo offers a variety of programs and services to assist equipment owners in recycling their IT products. For information on recycling Lenovo products, go to <http://www.lenovo.com/recycling>.

Important battery and WEEE information

Batteries and electrical and electronic equipment marked with the symbol of a crossed-out wheeled bin may not be disposed as unsorted municipal waste. Batteries and waste of electrical and electronic equipment (WEEE) shall be treated separately using the collection framework available to customers for the return, recycling, and treatment of batteries and WEEE. When possible, remove and isolate batteries from WEEE prior to placing WEEE in the waste collection stream. Batteries are to be collected separately using the framework available for the return, recycling, and treatment of batteries and accumulators.

Country-specific information is available at <http://www.lenovo.com/recycling>.

ENERGY STAR model information

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy aimed at saving money and protecting the environment through energy efficient products and practices.

Lenovo is proud to offer our customers products with the ENERGY STAR qualified designation. Lenovo YB-Q501F has been designed and tested to conform to the ENERGY STAR program requirements for computers.

By using ENERGY STAR qualified products and taking advantage of the power management features of your computer, you can help reduce the consumption of electricity. Reduced electrical consumption can contribute to potential financial savings, a cleaner environment, and the reduction of greenhouse gas emissions.

For more information about ENERGY STAR, go to <http://www.energystar.gov>.

Export classification notice

This product is subject to the United States Export Administration Regulations (EAR) and has an Export Classification Control Number (ECCN) of 5A992.c. It can be re-exported except to any of the embargoed countries in the EAR E1 country list.

Troubleshooting

Insufficient memory prompt appears during app installation

Please free up some memory and try to install again.

The touch screen does not work or is not sensitive

Please hold down the On/Off button for more than 10 seconds until the device turns off. Then

switch it on again in normal way.

Device does not power on or system crashes

Please charge the battery for half a hour and then hold down the On/Off button for more than 10 seconds until the device turns off. Then switch it on again in normal way.

There is no sound or the other person cannot hear during a call

Please adjust the volume using the volume button.

The device cannot access the internet via wireless network

Restart the wireless router or go to Settings and restart WLAN.

The device cannot wake up from sleep mode

Please hold down the On/Off button for more than 10 seconds until the device turns off. Then switch it on again in normal way.
