Sengled Smart Plug

Model: E1C-NB6

sengled

Introduction:

The Sengled Smart Plug enables automation of your non-smart devices and home appliances. You can control devices remotely and set schedules through the Sengled Home app, or use your voice to control your devices through our partner programs like Amazon Alexa and Google Assistant.

Note: A smart home hub is required to control these Smart Plugs.

Important Safety Information:

Before installing the Sengled Smart Plug, please read and follow all precautions, including:

- Risk of electric shock. Do not attempt to disassemble Smart Plug.
- Suitable for use in operating environment between -4°F and 104°F (-20°C and 40°C).
- Do not use where directly exposed to water.
- Indoor use only.

Installation Instructions:

The following instructions are applicable for adding your Smart Plug to a Sengled hub. If you have a third-party hub, such as SmartThings or Amazon Echo Plus, or would like to find our latest list of supported third-party hubs, please refer to support.sengled.com.

Note: Do not plug your Sengled Smart Plug in until the Sengled Home app tells you to do so.

1. Download the Sengled Home app.

2. Register and sign in to your Sengled account in the app.

3. Go to the **Devices** tab, select the **+** sign, and choose **Smart Plug.**
   Follow in-app instructions to finish installation.

4. Ensure your Sengled Home app can discover the plugs. If the app unsuccessfully discovers the plugs, please refer to the next section "Reset Instructions" for how to reset your plug before attempting to add it back in.

   Congratulations on successfully installing your smart plugs!

Reset Instructions

To reset your Sengled Smart Plug, push the power button and hold it for 8-15 seconds, then release. The blue indicator light will stay on briefly and then slowly pulse on and off. If it does not pulse, please try resetting it again. Once successfully reset, please pair your Smart Plug again in your Sengled Home app.

Operation:

The following outlines some of the popular operational modes for Sengled Smart Plugs.

A **Turning the Plug on and off:** The Sengled Smart Plug can be turned on and off via the physical button or through the Sengled Home app.

B **Scheduling your Smart Plug:** The Sengled Smart Plug can be scheduled through the Sengled Home App.

Check the in-app how-to pages through "Settings" for the following two operations:

C **Voice Control:** Set up Amazon Alexa or Google Assistant by adding Sengled Home skill.

D **Third party Control:** Utilize a third-party program, like IFTTT, to control your lights.

Frequently Asked Questions:

1. Can I use my Smart Plug simultaneously with other Sengled Smart devices?

Yes, a single Sengled Hub can support up to 64 devices from the Sengled Smart LED family, which includes devices formerly known as the Sengled family. For the latest selection, please check out sengled.com.

2. What should I do if my Sengled Smart Hub can't be found when I try to add my Smart Plug device?

Please check the Wi-Fi settings of your cell-phone. It has to be on the same Wi-Fi network as your Smart Hub.

3. What should I do if my Sengled Smart Plug is unresponsive?

Please confirm the following before reattempting to connect:
1) the outlet has power.
2) the Hub has power by checking that the Power "⏻" and Internet Connection "🔗" indicator lights are on.
3) the hub is online via the Sengled Home app.
4) the Plug is within range of the Hub. Try moving the Plug closer to your Hub.

If you still encounter a problem, please reach out to Sengled Support at support@sengled.zendesk.com.

Product Specifications:

Model number	E1C-NB6
