## IMPORTANT SAFEGUARDS

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

- This product must be installed and/or used in accordance with the appropriate electrical codes and regulations.
- Install the product away from heat-emitting appliances e.g. ovens or toasters.
- Do not open the housing for any reason. There are no user-serviceable parts inside.
- Use only with duplex receptacle having centre screw.
- Secure unit in place with screw provided.
- To reduce the risk of electric shock - use only indoors.
- Keep away from children.
- Do not install this product if there is not at least 10 meters (30 feet) or more of wire between the electrical outlet and the electrical service panel.

### CAUTION

Do not use the product in General Patient Care Areas or Critical Patient Care Areas.

- Connect the product directly to a grounded power outlet only. Do not use with extension cords.
- Do not exceed the maximum power output of the product.

## Contents:

Before getting started, ensure the package contains the following components:

A

x1

B

x1

You will need

# Intended Use

- This product is intended for protecting the electronics from power surges or increases in voltage.
- This product is intended for household use only. It is not intended for commercial use.
- This product is intended to be used in dry indoor areas only.
- No liability will be accepted for damages resulting from improper use or non-compliance with these instructions.

## Before First Use

- Check for transport damages.
- Clean the product before first use.
- Before connecting the product to the power supply, check that the power supply voltage and current rating corresponds with the power supply details shown on the product rating label.

### **⚠ DANGER**

**Risk of suffocation!** Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

## Installation

### Step 1:

### **⚠ DANGER**

To reduce the risk of electric shock disconnect power to the receptacle before installing or removing the unit. When removing receptacle cover screw, cover may fall across plug pins or receptacle may become dislodged.

If you are not sure about any part of these instructions, consult a qualified electrician.

# Installation

## Step 2:

# Operation

## LED indicators

After plugging the product and switching on the power, the 2 indicators light up:

"Protected" indicator (Orange): The surge protection is activated.

"Grounded" indicator (Green): The product is grounded.

**⚠ WARNING** If the "Protected" indicator goes off, the built-in surge protection is no longer functioning. Unplug all the connected devices and replace the product.

## USB Charging Ports

**⚠ NOTICE** You can charge two USB devices simultaneously. The total current output for both USB ports is 3.4 A. If the total current consumption of two USB devices exceeds 3.4 A, the current available for each USB device depends on its battery capacity. The output current will not be distributed equally to both ports.

**NOTICE**

If only one USB device is connected, the current output of the USB port is the same as the device's current consumption (max. 3.4 A).

# Cleaning and Maintenance

**WARNING**

**Risk of electric shock!** During cleaning do not immerse the electrical parts of the product in water or other liquids. Never hold the product under running water.

## Cleaning

- To clean, wipe with a soft, slightly moist cloth.
- Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the product.

## Maintenance

- Store in a cool and dry place away from children and pets, ideally in original packaging.
- Avoid any vibrations and shocks.

## FCC Compliance Statement

1. This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
  - (1) this device may not cause harmful interference, and
  - (2) this device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Canada IC Notice

- This Class B digital apparatus complies with Canadian CAN ICES-3(B) / NMB-3(B) standard.
