

ScatMat®

Extension Mat Instructions

Contents: One Extension Cord and one Extension Mat

Step 1

Switch the ScatMat power pack off.

Step 2

Remove the power pack's extension door.

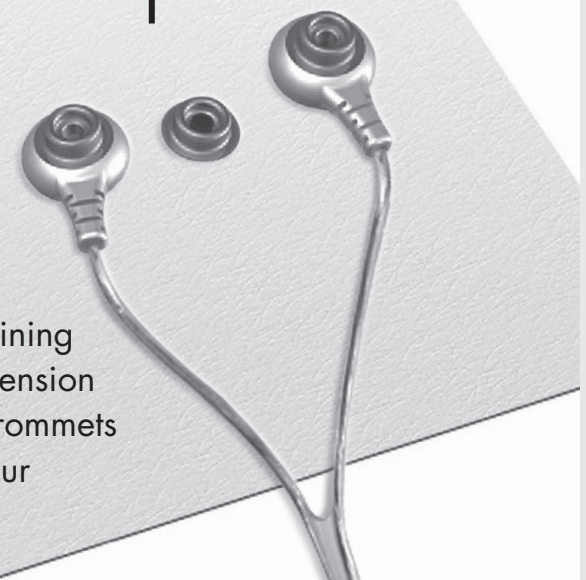

Step 3

Note: Either end of the extension cord can be attached to the snaps on the power pack.

Attach the extension cord to both 'extension cord snaps' located inside the power pack.
Replace the extension door.

Step 4

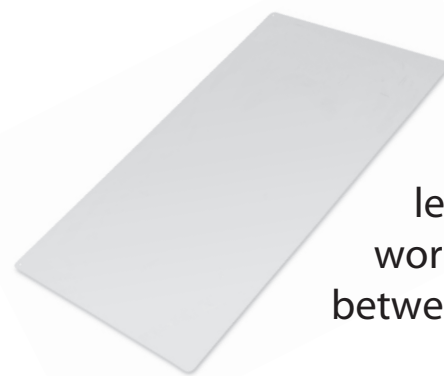

Snap the remaining ends of the extension cord to both grommets (buttons) on your extension mat.

OTHER EXCITING PRODUCTS AVAILABLE:

ScatMat Power Adapter

For high-traffic areas, consider using a ScatMat Power Adapter as an alternative to batteries. The adapter includes a 12 ft (3.6 metre) cord.

ScatMat Dummy Mat

Use a dummy mat after your pet has learned to avoid the ScatMat. The dummy works because pets can't tell the difference between the dummy mat and an active ScatMat.
