- A.** LED Display
- B.** Unit Selection Button
- C.** Power/Zero Button

- D.** Locking Key (Hold Button)
- E.** USB Charging Port
- F.** Anti-Skid Pads

Using Your Scale

1. Press  to turn on the scale. To turn it off, press and hold for 2 seconds.
2. Press  to tare (or zero out) the weight of a container.
3. Press **UNIT** to choose oz, lb:oz, g, mL (water/milk), or fl'oz (water/milk).
4. Press **HOLD** to lock the measurement data on the display.  will be invalid and **UNIT** will still be able to switch between units as normal. Press **HOLD** again to unlock the display.

Note: The scale is IPX6 water resistant, which means it can withstand most liquid spills without permanent damage. However, we still recommend wiping the scale dry with a soft cloth after any spills to keep it in optimal condition.
