Thanks for choosing DEWBU!

⚠ The DEWBU 12V heated apparel can only be paired with 12V batteries or can be connected to car cigarette lighter using the DEWBU 12V special cable.

Let’s get your jacket set up

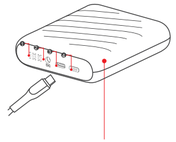

Scan to watch a 30-second video to set up your jacket.

Or

Follow these steps to set up your jacket

1. Charge the battery

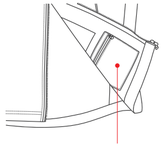

Before first use, make sure the battery has enough power by charging it fully, only needs approximately 4 hours with an 18W charger (about 7 hrs with 10W, about 12 hrs with 5W, about 22 hrs with 2.5W).

Power Bank

2. Locate the battery pouch

Locate the battery pouch on the jacket, it is located on the liner of the jacket directly beneath the pocket.

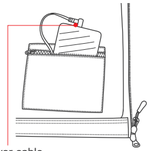

Built-in battery pocket

Follow these steps to set up your jacket

3. Connect power cable to battery

Insert the metal end of the power cable into the DC outlet located on the top of the battery. Then insert the battery into the built-in battery pouch and zip close the pouch.

Please insert the DC plug to the bottom to prevent poor contact.

Power cable

4. Turn on the power

Turn on the power by long-press the button on the right pocket for 3 seconds. The power button should begin in red indicator, which means HIGH setting. It will become the medium setting automatically after 5 minutes. Quick double tap to turn the lights off, short-press to turn the lights on and cycle through different power settings. Long-press 3 seconds to turn the power off.

Technical Specifications & Support

•Product Name: DEWBU Heated Apparel
•Input: 12V DC
•Compatibility: Only use with the provided DEWBU 12V battery or special 12V vehicle cable.
•Manufacturer: DEWBU Co. Ltd.
•Support: support@dewbu.com
•Website: https://www.dewbu.com
•Package List: 1x Heated Apparel, 1x Battery, 1x Charging Cable, 1x Instruction Booklet.

Battery Specification

•Model: DB-0125
•Battery Energy: 10.8V, 54Wh(5000mAh)
•USB Type-C Output: 5V ⎓ 1.5A(8700mAh)
•USB Type-C Input: 5V/9V/12V ⎓ 3A Max
•DC Output: 12V ⎓ 1.5A(4300mAh)
•CAUTION: Risk of Fire and Burns. Follow Manufacturer's Instructions.
•ATTENTION: Risque d'incendie et de brûlures. Suivez les Instructions du fabricant.

Cleaning & Maintenance

•Not to be used by very young children (0-3 years).
•Please disconnect and remove the battery before washing.
•Place the power cable into the built-in pocket and zip it up to prevent damage.
•Hand wash is recommended. If machine washing, please use a laundry bag to prevent line pulling.
•Do not use bleach or cleaning solvents, as they may deteriorate the insulation of the heating elements.
•Hang to dry only. DO NOT iron, wring, twist, or dry clean.
•Never use pins to avoid damaging the heating system.

Storage Instructions

•When not in use, remove the battery from the jacket.
•Before storing, always allow the garment to cool down before folding.
•Do not crease the garment by placing heavy items on top of it during storage.
•Store in a cool, dry place.
•Examine the garment and heating elements frequently for signs of wear or damage. If damage is found or the product does not work properly, contact us with your original proof of purchase. Do not attempt repairs.

Safety Warnings

WARNING: To avoid the possibility of heatstroke, disconnect the power supply when moving to an environment with a significantly higher temperature.

•Vulnerable Persons: This appliance must not be used by persons insensitive to heat or other vulnerable persons who are unable to react to overheating.
•Medical Use: This appliance is not intended for medical use in hospitals.
•Children: Children under the age of three must not use this appliance. Children over the age of three should only use the product if the controls have been pre-set by a parent or guardian, and unless the child has been adequately instructed on how to operate the controls safely.
•Extended Use: If the clothing is used for an extended period, adjust the control to the LOW (Green LED) setting.
•Heat Fatigue: Stop use immediately if you recognize signs of heat fatigue, heat stroke, dizziness, or any discomfort.
•Moisture: Do not use the garment if it is wet. Ensure the product is completely dry before switching it on.
•Skin Care: Do not wear the heating zones directly against your skin. Check your skin regularly to avoid low-temperature burns.
•Modification: Do not attempt to disassemble, modify, or repair any part of the product by yourself.
•Safety Disposal Notice: Contact us with your original proof of purchase if it has been misused. Do not attempt repairs.
