

thanks you

DIYIFE

We hope you enjoy your purchase.

Go on, test it now (we know you want to)

- 1. Simply put your car key in a box**
 - 2. Close it properly**
 - 3. Go near your car, try to open it, your car should not respond.**
-

For Faraday Pouch please note - there are 2 pockets.
Signal blocking pocket is with silver material all around.

If for any reason your car does respond, please contact us
we will solve the issue for you immediately
