Furniture Strap Locks Manual

Description:

Protect your child from common dangerous household hazards. Multipurpose locks for a variety of storage spaces all around the house: from cabinets, drawer & dresser to oven, fridges, tiled lids & more

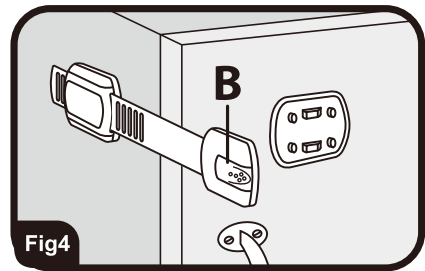

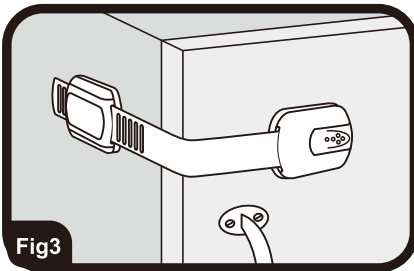

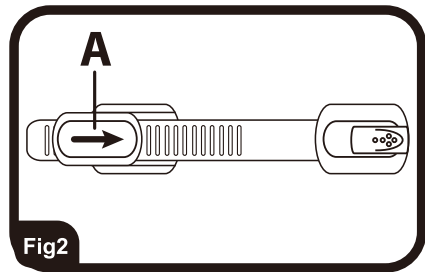

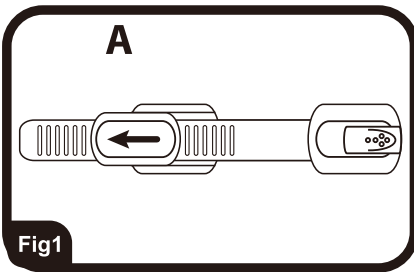

Features:

- More than 20 types of surfaces - Reinforced 3M PE technology
- Adjustable length, Smart Slide & Release button
- Recyclable and non-toxic
- Wipes for installation surface treatment

Instructions:

(Important) Please clean the surface using the included wipes and **let it dry**

1. Measure the length needed then cut the strap if necessary
2. Put the strap into the lock unit A (Fig.1), they connect together (Fig. 2)
3. Peel off the adhesive and apply the lock, firmly press and let adhesive dry (Fig. 3)
4. To open the lock push on the button B and pull out (Fig. 4)

CAUTION! Do not test the locks strength after application. Allow the lock adhesives at least 24 hours to soften and stick properly

To remove: apply heat from the heardrier, warm up adhesive then use dental floss to cut through the adhesive

100% satisfaction guaranteed!
