

portal

How does calling work on Portal?

With Portal, you can make and receive calls to and from your Facebook friends and Messenger connections.

You can make, receive and end calls using voice commands by saying things like:

- “Hey Portal, answer” while receiving a call.
- “Hey Portal, hang up” during a call.

You can also control calls directly on your Portal:

To make a call:

1. From **Home**, tap to open the **Contacts** app.
2. Tap the contact you'd like to call.
3. Tap **Call** to start your call.

portal

To answer a call:

1. When receiving a call, tap **Answer** to join the call.

To end a call:

1. During a call, tap your Portal screen to expose the call menu.
2. Tap  to end the call.

During a call you can do things like:

- Move and talk freely while Portal's Smart Camera and Smart Sound adjust to keep you audible and in the frame.
- [Add more friends to the call](#) (up to 6 additional contacts).
- [Use AR effects and Story Time](#).
- [Move calls between Portal and Messenger](#).
- [Turn your microphone or camera off](#).

Notes:

- Currently, Portal calls can only be received on Portal devices or the Messenger app on mobile phones or tablets.
 - When calling Portal from the Messenger app, make sure you have the latest version of the [Messenger app installed on your phone or tablet](#).
- Portal can't call or be called from [Facebook.com](#) or [messenger.com](#), Messenger Kids accounts or the Messenger Lite app.
