Quick User Guide

1. Find USB nano Receiver, open battery cover, take out the receiver

2. Install the battery (take out the battery from box, check battery + and - and battery size)

3. Close the battery cover

4. Connect the USB receiver to your computer

5. Power on

6. Power on switch, Light/ Sensor **came on for few seconds Red color** and off ,the same time battery power on indicator light on few seconds(power on/off, light /sensor came on for few seconds and off is for power saving design, battery can use more long time)

7. you will find mouse cursor, on the computer, Ready for use

8. Use after several months, If the battery low Voltage indicator **always Blinks**, this remind you need prepare new battery waiting for replacement

This is all Use steps, Hope all of you have good use feeling
