Safety Instructions

The safety instructions must be followed. Intended for indoor and outdoor use.

Assembling must be done by adults or by supervision of them - by no means from small children. Keep away from fire and other heat sources. Do not use the product, if the metal frame is broken or bent. Do not give your children the packaging bag and possibly existing fixation. Do not modify the construction.

Handling:

Assembling and Disassembling see drawing. Get familiar with the folding technique, and after a few tries, you can build up the castle in a few seconds and also disassemble. Take out the product parts from the packaging and remove the packaging material. Unroll the tent and create the basic form. Stick the split tube parts into each other so that four tubes are created. Push these tubes through the loops of the tent`s inner part and stick the ends of the tubes into the floor flaps. Build up the tent only on soft ground (carpet) that the material over the metal frame will be not damaged. Place the toy on a level surface at least 2 m from any structure of obstruction such as a fence, garage, house, overhanging branches, laundry lines or electrical wires.

Maintenance and Storage:

Clean the product only with a damp cloth after usage; do not use other cleaning products. Product must be completely dry before replacing all parts in its package and keep it in a cool and dry place. Main parts must be checked before built up in order to prevent become a hazard. In addition check at regular intervals all coverings of wire construction for sharp edges and also attachments for evidence of deterioration.

Disposal:

Dispose the product and packaging, in accordance to the existing directives of the country, in an authorized disposal center. If you fulfil the statutory obligations you are making a contribution to environmental protection.
