

Wear OS by Google

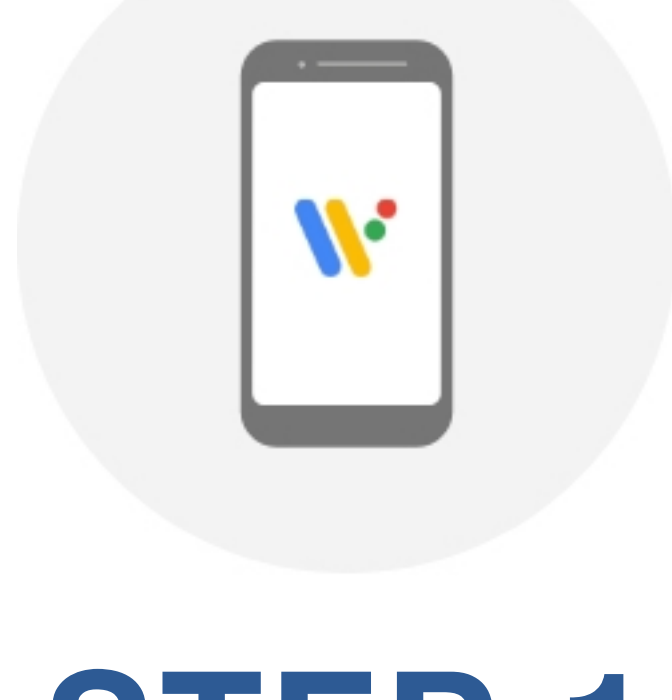

WELCOME TO YOUR NEW SMARTWATCH

LET'S GET STARTED

GETTING SET UP

Let's start by linking your new smartwatch with your smartphone. Here's how:

STEP 1

Connect your watch to the included charger. On your phone, download the Wear OS by Google™ app, open the app and tap Set It up.

STEP 2

On your phone, tap the name of your watch and compare the Codes that appear on both screens

STEP 3

If the codes that appear are the same, tap Pair on your phone. Pairing can take a few minutes. If the two codes are not the same, restart your watch and try again.

If the code still doesn't match:

- Check your bluetooth connection.
- Restart both devices.
- Unpair and try again.

STEP 4

On your phone, tap the name of your watch and compare the Codes that appear on both screens

HAVING TROUBLE?

[Click here](#) for further troubleshooting.

GETTING CONNECTED

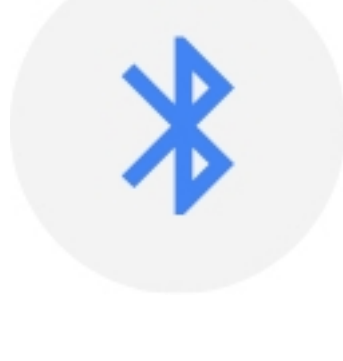

Some things are better together. Your smartwatch can connect to Bluetooth devices or WiFi to do even more.

CONNECT TO BLUETOOTH DEVICES:

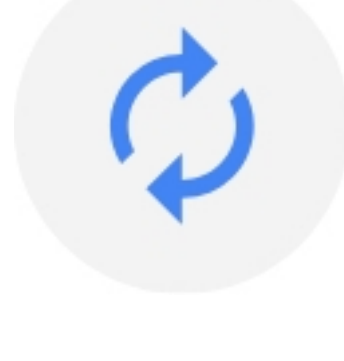

- Set the Bluetooth device to pairing mode.
- Swipe down on your watch to open quick shade settings.
- Tap the Settings icon and go to Connectivity > Bluetooth > Available devices.
- Tap the name of the Bluetooth device to connect to it.

IF YOU'RE HAVING TROUBLE CONNECTING, TRY THESE STEPS:

BLUETOOTH CONNECTION:

On your phone, go to Settings > Device connection > Bluetooth and check that it is toggled on.

RESTART YOUR WATCH:

Long hold the crown button and tap Restart to reboot your device.

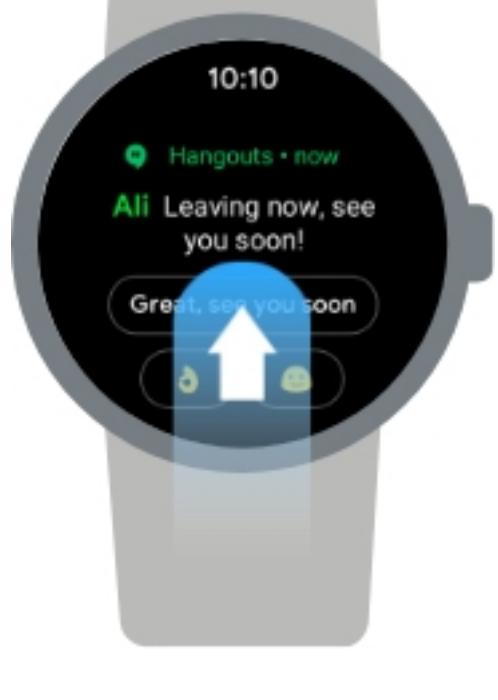

CONNECT TO WIFI:

On your watch, go to Settings > Connectivity > WiFi to add a network.

GETTING AROUND

Learn to navigate your new smartwatch.

SWIPE UP

to browse your notifications.

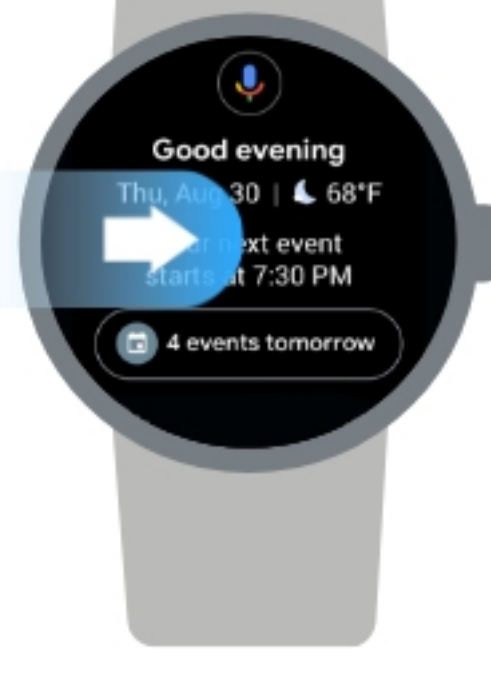

SWIPE DOWN

to access frequently used settings.

SWIPE LEFT

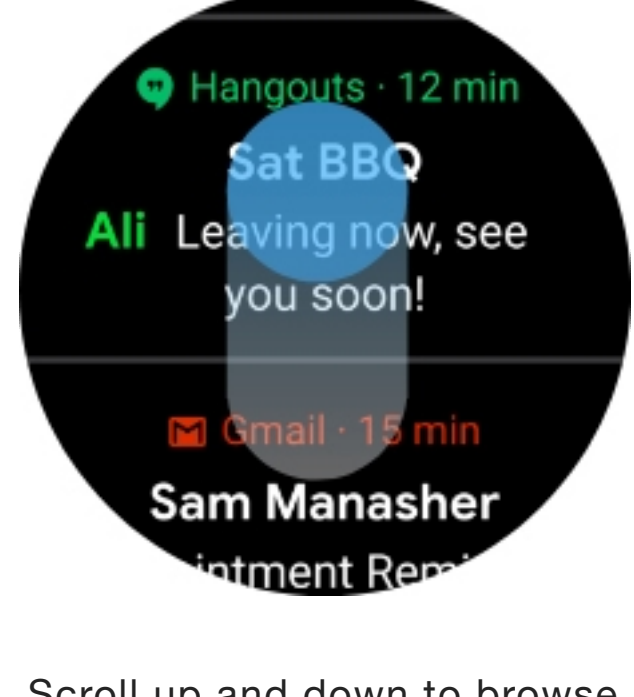

to access Google Fit™.

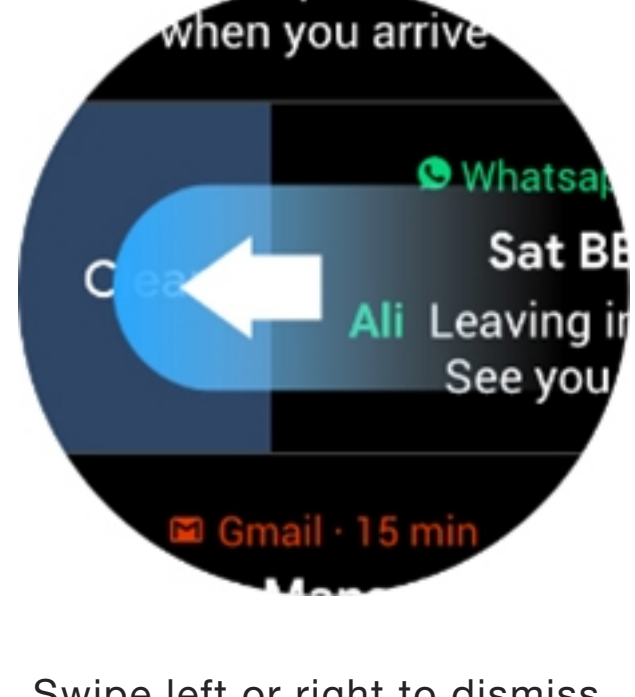

SWIPE RIGHT

to get proactive help from Google Assistant.

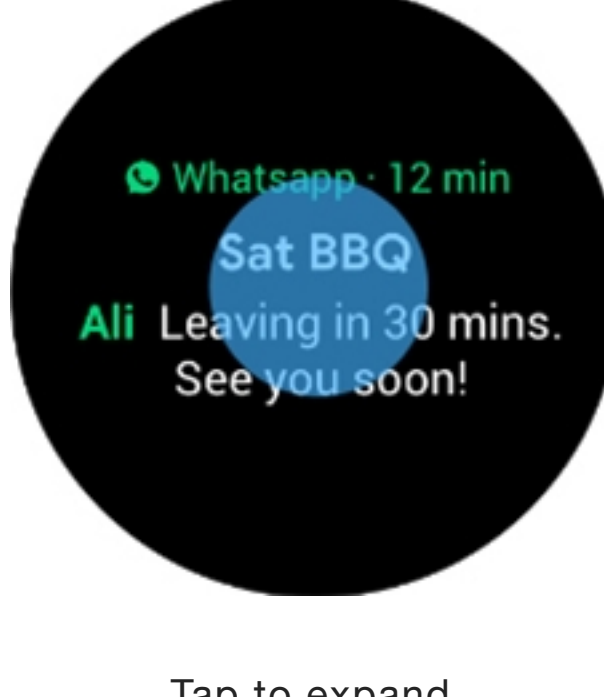

NOTIFICATIONS

Scroll up and down to browse.

Swipe left or right to dismiss.

Tap to expand.

TOP TIP

Long press the screen and swipe left or right to browse the watch face styles available.

SEE WHAT YOU CAN DO

These useful features will help you get the most out of your new smartwatch.

PROACTIVE HELP FROM GOOGLE ASSISTANT

Ask Google Assistant to manage daily tasks, check the weather, get answers, and more, all while on the go. Just press and hold the power button or say "Ok Google."

FIND MY PHONE

Can't find your phone? No problem. Swipe down and tap the Find my phone icon to ring your phone. It will work even if your phone is on silent.

PAY ON THE GO

Checkout made simple. Set up your card in the Google Pay™ app on your watch, then simply open and twist your wrist to turn your watch face near the terminal until you feel a vibration.

CONTROL YOUR MUSIC

Control your music right from your wrist. Pause or skip tracks and control the volume all with a tap.

GOOGLE FIT

Get healthy with Google Fit™. Track your progress with activity goals like Heart Points, based on recommendations from American Heart Association and World Health Organization.

STEP COUNTER

Tracks all activity, no matter what gets you moving.

HEART POINTS

Credit for activities that get your heart pumping harder.

MONITOR PROGRESS

Track steps and Heart Points throughout the day.

RECORD REPS

The strength training feature automatically counts reps while exercising.

TRACK STATS

Smart sensors record the essentials, like heart rate, speed, pace, route and more.

GUIDED BREATHING

Follow calming, dynamic visuals that take you through breathing exercises.

HELP & SUPPORT

Sometimes we need a little extra help. Luckily there are loads of resources out there to give you a helping hand when you need it.
