INSTRUCTION MANUAL CUM WARRANTY CARD

Pigeon nonstick cookware is designed to make your cooking healthier and simpler. This cookware is manufactured in our new state-of art manufacturing facility based on high end Italian technology, a first of its kind facility in India. The company has technological tie-ups with AMV Italy for nonstick cookware. All nonstick cookware adhere to strict quality standards. Pigeon new range of nonstick cookware is made of premium grade aluminum.

The main features of nonstick cookware include:

- Worldwide accepted PTFE coating (PFOA Free)
- Handles Easy to clean & Hygienic
- Thick Base : High durability
- Oil groove at the surface : Healthy cooking with less oil

All these features make cooking real pleasure and simple. The greatest advantage of Pigeon nonstick cookware is that it releases the food very cleanly and at the same time consumes less oil content.

Before using your Pigeon nonstick cookwares for the first time, kindly follow the instruction in this manual carefully.

- Remove all stickers before use
- Season the non stick cookware before first/initial use by cleaning with a damp cloth dipped in soap water
- After rinsing and drying smear a thin layer of cooking oil on the nonstick surface and heat with low flame for 30 seconds, rinse with soap water again and dry it with soft cloth. Your Pigeon nonstick cookware is ready for use.
- For better cooking result, ensure that you cook only with a low or medium flame to avoid burning of food, wastage of energy and discoloration of nonstick surface.
- Allow the used/hot cookware to cool completely every time before rinsing in water as sudden change of temperature can cause warping and peel off of nonstick coating layers.
- Do not use sharp edge utensils on the cookware.
- Do not store any food on the cookware, wash your nonstick with warm soapy solution using sponge / nylon scrubber after every use to prevent oil deposition.
- Don't use metal scrubber for cleaning
