# Electric Insect Trap User Manual

**Work for most Insects**  
Effective and powerful.Easy to use

**Eco-friendly**  
No pesticides, No chemical

**WHAT DOES THE TRAP CATCH**  
FRUIT FLIES, MOSQUITOES, MOTHS, GNATS  
NOT VERY EFFECTIVE WITH FLIES

## HOW TO USE

- 1.Set up: press the button to on.
- 2.Take glue board and remove protective layer to expose stick surface. Place sticky side up.
- 3.Place near fruit bowl, trash can or plants for best results. Works best without human presence. Leave running overnight.
- 4.Replace the glue pad after using for one week, clean the bottom van.

## TIPS FOR USING INSECT TRAP

- 1.Close your windows and shut the doors. The device for indoor use only.
- 2.Only use the trap at night-bugs are attracted to the UV light best seen in the dark.
- 3.Place the trap near the insects e.g near the fruit bowl, trash.

## WORKING PRINCIPLE

1. Light attraction: fly insects and mosquitoes have a strong response to ultraviolet light.
2. Suction: After the ultraviolet light attract mosquitoes to the lamp body around, the mosquito control device is equipped with a powerful suction fan, which can form a high-speed air stream to draw mosquitoes into the device.
3. Capture: When insects are sucked into the device, they are captured. Mosquitoes and insects adhere on the glue board, die and dehydrate in the van.

## HOW AND WHEN TO USE IT?

Turn off all the lights. Insects are attracted to the UV light, most visible in the dark. Use indoors and place on a solid surface leaving it to work overnight. Close all doors and windows to keep the insects in one room. Position the trap as near to the insects as possible for maximum results.

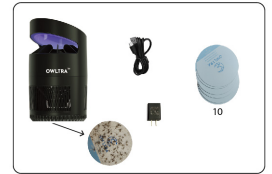

To catch mosquitoes avoid being in the same room with the trap. Possible to use outdoors in a closed area e.g terrace or shed. Placing the glue board included as indicated in the instructions will prevent the insects from escaping.

## WARNING

Do not clean while powered!  
Avoid humidity and keep away from water!

## Directions

- 1.Peel the protective layer.
- 2.Place sticky side up.
- 3.Replace timely.

## FCC COMPLIANCE

This device complies with part 18 of the FCC rules. This product may cause interference to radio equipment and should not be installed near maritime safety communications equipment or other critical navigation or communications equipment operating between 0.45-30MHz. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1.Reorient or relocate the receiving antenna.
- 2.Increase the separation between the equipment and receiver.
- 3.Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4.Consult the dealer or an experienced radio/TV technician for help.

## Electric Insect Trap (Indoor)

Model	IMF-L70
Brand	Owltra
Power	4.5W
Dimension	D13*H22.5CM
Accessories	Glue pad 10pcs,USB cable,5V Power Adapter.
