

Motorcycle Bike Lift Stand instructions

Adjustable steel lift, with non-slip rubber, large lever, and portable design, will raise your motorbike for maintenance or cleaning and keep you riding. A heavy-duty steel frame with powder coated gives this lift strength, durability, and longevity. The convenient size and manageable weight allow this lift to be transported wherever needed, from the garage to the track. With a large contact area, topped with non-skid rubber padding, your bike will sit fully elevated with no slipping.

Premium Steel & Great Capacity

Our product is constructed from powder-coated high-grade steel, strong, stable, and highly impervious to oil and dirt. Its reinforced maximum load capacity is 400 lbs / 181 kg.

9.0"-16.5" Flexible Height

With the dynamic lift height range from 9.0" to 16.5", our dirt bike jack stand can be adjustable to fit most motorcycles or dirt bikes.

Large Lever Design

The large lever offers labor-saving grip and operation. Just push down the arm, and the platform is easy to be raised and fixed in the raised position with the lock nut's help.

Hydraulic Cylinder

The hydraulic pump delivers powerful thrusts to make the lift or descent easy and reduces the damage to your vehicle.

Widened Top Surface

Our lift stand adopts an extra-large repair table 10.8" x 6.5". It provides simple but sturdy work raising and lowering your vehicle.

Non-Slip Deck & Base

H-shaped base widens force surface and increases loading capacity. Ribbed repair table and rubber feet help prevent bike slippage.
