SAFETY WARNINGS

⚠ AN IMPORTANT MESSAGE TO PARENTS: This manual contains important information. For your child's safety, it is your responsibility to review this information with your child and make sure that your child understands all warnings, cautions, instructions and safety topics. All children and preteens should ride with adult guidance at all times. Razor USA recommends that you periodically review and reinforce the information in this manual with younger riders, and that you are required to inspect and maintain your child's RipSurf™ to ensure their safety.

⚠ GENERAL WARNING: RipSurf riding can be a hazardous activity. Casterboard products can, and are intended to move and it is therefore possible to get into dangerous situations and/or lose control and/or fall off a RipSurf. If such things occur you can be seriously injured or die.

LIKE ANY OTHER MOVING PRODUCT, USING A RIPSURF CAN BE A DANGEROUS ACTIVITY AND MAY RESULT IN INJURY OR DEATH EVEN WHEN USED WITH PROPER SAFETY PRECAUTIONS. USE AT YOUR OWN RISK AND USE COMMON SENSE.

- Always wear proper protective equipment. Elbow and kneepads, long sleeve shirt, gloves, long pants, and shoes are recommended. Wear athletic shoes (lace-up shoes with rubber soles). Don't ride barefoot or in sandals. Keep shoelaces out of the way of casters and wheels.
- Use the RipSurf only on smooth, dry, level ground without loose debris, such as rocks or gravel.
- Never use the RipSurf at dusk or night or in wet or icy conditions.
- Avoid water, speed bumps, sand, gravel and anything else that could cause your wheels to stop. When in doubt, avoid the bumps.
- Do not exceed 220 lb (100 kg) total weight on the RipSurf.
- Do not allow children under age eight (8) to use the RipSurf. Children under age ten (10) should ride with adult supervision at all times.
- Never ride in traffic and watch your surroundings for pedestrians, bikes, skateboard, scooter, and RipSurf riders. Use the RipSurf in areas free from fixed or moving hazards, such as poles, hydrants, parked automobiles and traffic.
- Risk of injury increases as degree of trick difficulty increases. Rider assumes all risk associated with trick riding activities. Be careful and know your limitations.
- This product was manufactured for performance and durability but it is not impervious to damage. Trick riding can over time stress or damage any product, including the RipSurf, and the rider assumes all risks associated with high-stress activity.

⚠ WARNING: ALWAYS INSPECT THE RIPSURF PRIOR TO RIDING. Properly inspecting and maintaining your RipSurf can reduce the risk of injury. Always inspect your RipSurf before riding and regularly maintain it.

⚠ WARNING: REGARDING USE OF NON-RAZOR PRODUCTS WITH YOUR RIPSURF. Your RipSurf has been built to our design specifications. All the original equipment supplied at the time of sale were selected on the basis of their compatibility with the board, casters and all other parts. Certain after-market products may or may not be compatible with your RipSurf. Consult your retailer or contact us prior to modifying or replacing any component with a non-factory specified product.

⚠ WARNING: CHECK LOCAL LAWS REGARDING RIPSURF USE. Check local laws and regulations to see where and how you may use your RipSurf legally. In many states and local areas RipSurf riders may be required BY LAW to wear a helmet. Check local laws and regulations regarding laws governing helmet use and RipSurf operation in your area.

⚠ WARNING: Aggressive and other stunt-type riding reduce your ability to maneuver and control your RipSurf. Take the necessary precautions, such as wearing appropriate protective gear and practice in a safe area for stunt riding and free from obstructions.

⚠ WARNING: You will see people on TV and videos or maybe even people you know doing tricks or stunts on a RipSurf. These are people who have been practicing a long time and who accept the risks of trick riding activity. Do not assume that you can attempt to do the same tricks without great risk.

FAILURE TO USE COMMON SENSE AND HEED THE ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.

...and no, this not a surfboard. Use only on land, not in water.

RIPSURF PARTS AND COMPONENTS

Product ID Locations:

(See locations to the left)

1. Underneath platform (not shown)
2. Box - side of UPC (not shown)

NOTE: Your model may differ in appearance from the one depicted above.

Box Contents:

- RipSurf
- Extra Wheel
- Stickers
- Owner's Manual

Please have the product I.D. code (located on the white label of your product) available for better assistance. Additional Customer Service contact information is listed at the back of this manual.

PRE-RIDE CHECKLIST

Deck

Always inspect your RipSurf's wheel bearings and other hardware to make sure they are tight before each use. Check for cracks or broken connections. Although broken decks are rare, it is possible for an aggressive rider to run into a curb or object and wreck and bend or break the deck. Get in the habit of inspecting your RipSurf on a regular basis.

Hardware/Loose Parts

Check and secure all fasteners before every ride. There should not be any unusual rattles or sounds from loose parts or broken components. If the unit is damaged, do not ride. **Reference "Safety Warnings" on page 1 of this manual.**

Safety Gear

Always wear proper protective gear, such as an approved safety helmet. Elbow pads and kneepads are recommended. Always wear closed toe shoes (lace-up with rubber soles) and keep shoelaces tied and out of the way of the wheels. **NEVER RIDE BAREFOOTED OR IN SANDALS.**

Laws and Regulations

Always check and obey any local laws or regulations.

Be Careful!

You will see people on TV and maybe even people you know doing tricks and stunts. These are people who have been practicing on the RipSurf for a very long time. Don't try something until you are ready. Avoid steep inclines and don't ride too fast — you can lose control and fall. Skateboard parks are not designed for the RipSurf. Never ride in traffic or on the street and watch your surroundings for pedestrians, bikers, boarders and skaters.

USAGE

□ How to Ride

1. Watch the “RipSurf Ride Guide” video on www.youtube.com.
2. When learning, ask a friend to help. Put your hand on your friend’s shoulder for stability and have them put their hand on your shoulder as well. If you don’t have a friend available, you can try holding onto a fence.
3. Step onto the front of the RipSurf, level the deck out, and check to make sure your foot feels secure and balanced. Your foot should go straight across the deck (perpendicular to the direction of travel).
4. When your front foot feels secure and balanced, push off (holding onto your friend) and put your back foot on the traction pad. If you don’t feel secure and balanced, step off and start again.
5. Once you are balanced and rolling forward with both of your feet on the RipSurf, start alternating your feet forward and backward in small motions by twisting at the waist. Your friend can help by moving along with you until you get going. Slowly increase the size of the motions, which will increase your speed.
6. To turn, push down with the front foot in the direction you want to go. If you push the toe of your front foot down, the RipSurf will turn toward your toe side. Alternatively, if you push the heel of your front foot down, the RipSurf will turn toward your heel side. Lean your back foot in the opposite direction as your front foot to maintain your balance and control the degree of the turn.

□ How to Stop

1. To stop, simply step off.

REPAIR AND MAINTENANCE

❑ **Cleaning Your RipSurf**

Wipe with a damp cloth to remove dirt and dust. Do not use industrial cleaners or solvents as they may damage the surfaces. Do not use alcohol, alcohol-based or ammonia-based cleaners as they may damage or dissolve the plastic components or soften the decals or decal adhesive.

❑ **Wheels and Bearings**

Under normal circumstances and conditions, RipSurf wheels and wheel bearings are maintenance free. Nonetheless, it is the responsibility of the owner or guardian to periodically inspect the wheels for wear and tear, the axle for proper tightness, and the bearings for side-to-side play and loose parts.

When a wheel or wheel bearing develops play, this is an indication of excess wear and replacement is necessary. Replace immediately with only genuine Razor caster board wheels. Worn wheels/bearings are considered normal wear-and-tear and are not covered by the Limited Warranty. Wheels other than genuine Razor caster board wheels may not be compatible with your RipSurf. The use of anything other than genuine Razor replacement parts will void your warranty.

Since the motion of the RipSurf is created by the wheels, casters and the swiveling of the rider, the wheels can wear out very quickly. This is not a defect but normal wear and tear. The wear and tear effect can be worsened by a first time user and wheel longevity should improve as the rider gains experience and skill. Other factors that contribute to wear on the wheels include rider weight, riding terrain and frequency of use.

❑ **Replacement Parts**

The most frequently requested replacement parts are available for purchase at some Razor retail partners. For the complete selection of replacement parts visit www.razor.com.

❑ **Repair Centers**

For a list of authorized Razor repair centers:

- Check online at www.razor.com.
- Additional Customer Service contact information is listed at the back of this manual.

WARRANTY

Razor Limited Warranty

This Limited Warranty is the only warranty for the RipSurf. There is no other express or implied warranty.

The manufacturer warrants this product to be free of manufacturing defects for a period of six (6) months from date of purchase. This Limited Warranty does not cover normal wear and tear, nor any damage, failure or loss caused by improper assembly, maintenance, storage or use of the RipSurf.

This Limited Warranty will be void if the product is ever:

- used in a manner other than for recreation or transportation;
- modified in any way;
- rented.

Check local laws and regulations to see where you can ride your RipSurf legally. The manufacturer is not liable for incidental or consequential loss nor damage due directly or indirectly from the use of this product.

The manufacturer is not liable for incidental or consequential loss or damage due directly or indirectly to the use of this product.

Razor does not offer an extended warranty. If you have purchased an extended warranty, it must be honored by the store at which it was purchased.

For your records, save your original sales receipt with this manual and write the serial number below.
