

## BICYCLE PHONE HOLDER

Universal For Smartphones

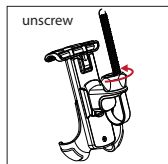

### 1. Attach the holder to the mount

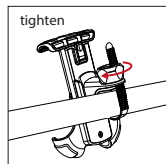

Slide the holder into the groove upwards and push it up until it 'clicks'.

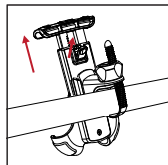

### 2. Secure the mount to the handlebar

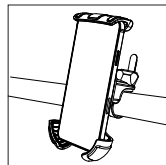

Unscrew the nut from the holder then fix the holder onto the handlebar. Pull the strap and tighten the nut to the end.

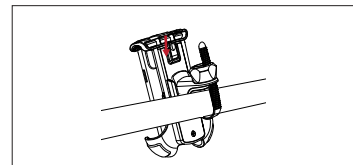

### 3. Install the phone on the holder

Release the lock on the back of the holder, lift the holder at the top of the phone, and install the phone on the clip.

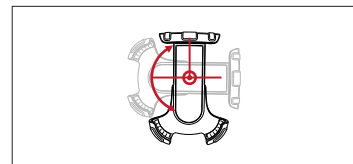

### 4. Lock

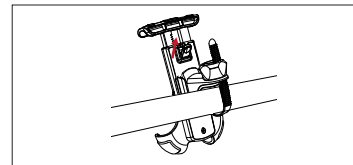

Lock the holder to secure the phone

### 5. Rotate freely

360-degree free rotation, easy cycling.

### 6. Remove the phone

Release the lock, lift the clip on the top of the phone, then remove the phone.
