

2017 ADVANCED LGR PERFORMANCE

TURBOCHARGED PERFORMANCE

NEW Technology under the hood delivers huge performance increases!

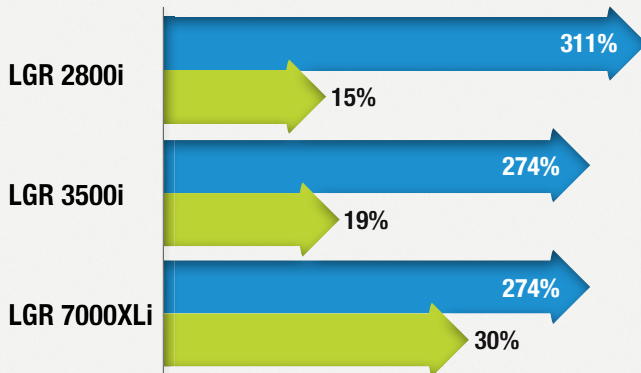

SAME LOOK, NEW TECHNOLOGY!

The 2017 Dri-Eaz LGR 2800i, 3500i and 7000XLi dehumidifiers feature new technology under the hood that delivers **AMAZING** water removal:

- Up to 311% more water removal at 50°F/60%RH
- 30% more water removal in low-grain conditions (80°F/20%RH)

2017 i-Series Performance Gains (over previous models)

■ 50°/60%RH ■ 80°/20%RH

The 2017 models incorporate the proven, advanced technology that already drives the Revolution's impressive low-grain performance – more than twice its closest competitor!

2017 i-SERIES ALSO INCLUDES THE FOLLOWING FEATURES:

- See grain depression instantly on-screen - determine drying progress at a glance
- New filter and coil inspection/cleaning reminders help you keep your units running at maximum efficiency
- Enhanced menu is easier to use and saves time
