Package: 1* Lunch bag, 1* Heating plate w/power cord, 1* Shoulder strap, 1* Quick start guide

How To Use

Simple Three Steps

Eat healthier and tastier meals

1. Put food in Aotto and zip it up
2. Plug it in and go about your day
3. Unzip and enjoy a hot delicious meal

Aotto portable food warmer that uses thermal technology to perfectly heat food, low-slow conduction heat to bring foods to the ideal temperature, and preserves the moisture and nutrition of your food without overcooking or drying out. Your food will be reheated or cooked moist, juicy, and better tasting than in a microwave.

Compatible Containers

You can use any flat bottom, re-heatable, sealed containers
Accommodates containers up to 9.76" L x 7.01" W x 3.94" H

Glass

Plastic

3 IN 1 MINI OVEN

110V Wall Plug Use

12V & 24V 2 in 1
Vehicle Plug Use

Cooking Tips

- ▶ **Leftovers:** Leftovers are the most popular way to use the AOTTO personal portable oven. Most leftover meals will warm up enough to eat in about 30-60 minutes but will stay at the perfect eating temperature for hours.
- ▶ **Refrigerated Meals:** Allow about 50 minutes -2 hours for the meal to fully heat.
- ▶ **Pasta:** If it's not heavily sauced, add one or two tablespoons of water to ensure perfectly reheated.
- ▶ **Pizza:** Wrap them in foil and place them directly on the heating plate.
- ▶ **Vegetables:** Vegetables based leftovers will maintain their moisture for hours.
- ▶ **Meat:** All food heats to about 168 degrees, so your meat will become well done if you leave it for hours.
- ▶ **Soup:** Soup will heat faster and evenly without drying out.

Note: The heating time depends on the container, food types, portion size, temperature, and the voltage you are using. It will heat faster using 110 volts and 24 volts.

Care & Cleaning

- 1 Do not use a damaged power cord and plug. Be careful of the hot heating surface and keep it out of reach of children.
- 2 Do not plug the device in without a container. Unplug the device after use and allow it to cool to room temperature before cleaning.
- 3 Do not submerge the device in water. Use a soft, damp cloth or paper towel and a gentle cleanser to clean surfaces.

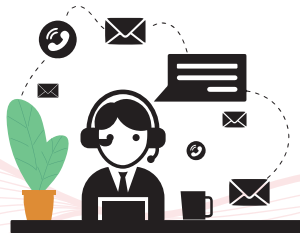

Warranty

If your Aotto does not properly heat or is found to have any defects, simply contact our service team, Aotto is dedicated to offering you a 1-year warranty. This warranty does not extend to damage ascribed to improper use, negligence, misuse, or any use not included in the operation instructions.
