In accordance with the EU General Product Safety Regulation (GPSR) (EU) 2023/988, we have conducted an internal risk assessment of the subject product.
This product is designed for its intended consumer use and does not present any residual hazards that cannot be addressed through standard product design and manufacturing controls. As such, the product is safe under normal or reasonably foreseeable conditions of use. There are no inherent risks—such as choking hazards, chemical exposure, electrical danger, or sharp edges—that necessitate the provision of specific warning labels, safety information, or hazard symbols under the GPSR.
Consequently, we have provided a safety attestation confirming that no warning or safety information is required for this product, as it can be used safely as intended without additional cautionary guidance.
