

[◀ BACK](#)**POPSOCKETS**

PopSockets are fashionable accessories that help transform your mobile devices. PopSockets offer a secure grip for texting or snapping the perfect selfie, and propping your phone up for catching the latest video. Just "pop" & expand one whenever you need a grip or stand for those brilliant pix, videos, or posts.

Get a grip and enjoy added protection from drops through easier texting, scrolling and selfies.

A grip, a stand, a wrap and more...

Add a single PopSocket, or a pair of PopSockets, to the back of almost any mobile device to transform its capabilities. PopSockets "pop" whenever you need a grip, a stand, an earbud-management system, or just something to play with.

PopSockets not only make terrific phone grips and phone stands, they also make holding tablets and e-readers more comfortable and secure. While PopSockets do not stick to all devices and cases - especially those made of silicone or with a waterproofing coating -- they do stick to most typical devices and cases. And with the PopSocket Mount companion product, they attach to nearly any vertical surface, including dashboards, mirrors, bed posts, refrigerators, and walls, for convenient hands-free viewing.

Whether you place PopSockets on your Nintendo 3DS for gaming, your GoPro for a supplemental grip in the water, or on your bedroom mirror to hang jewelry, the possibilities are endless. Where do you put your PopSockets? Let us know on [Facebook](#), [Instagram](#), or [Twitter](#).
