App Download Method

NOTE

- This product needs to be connected to the printer in the App;
- Due to the requirements of mobile phone system, the Android mobile phone will use the user's geographic location when connecting, so that the user needs to turn on the GPS and confirm the authorization.

Method I: Please use your mobile phone to scan the QR code to download the App

Method II: Search and download

Google Play

App Store

Print Master

Boot Guide

01 Press and hold for 2s to turn on

02 Open the paper compartment cover of the machine

Paper Roll Installation

- 01** Take out the label paper, tear off the anti-loosening sticker

- 02** Put the printing paper in the compartment with the printing side left

- 03** Pull out the label paper by 5mm in length for normal printing

Paper Roll Installation

04 Close the paper compartment cover of the machine

05 Click the power button to identify the label position

06 Come out a piece of paper, positioning completed

NOTE

- When installing or replacing the label roll for the first time, the label position identification is required; (Step **05**)
- If the label position identification is not carried out (Step **05**), failures may occur such as first printing missing, not centered, etc.

Printer Connection

01 Turn on GPS(Android mobile phone only)

02 Open the App

03 Click to search **Connect now** for the device

04 Connect immediately

NOTE

- When connecting device in the App, please make sure that your printer is turned on and Bluetooth of your mobile phone is turned on.
- Due to the requirements of mobile phone system, the Android mobile phone will use the user's geographic location when connecting, so that the user needs to turn on the GPS and confirm the authorization.

Confirm the Label Size

Method I:

Check the antiloosening paste (Please refer to the actual size used)

Method II:

Check the label paper packaging

Method III:

Use a ruler to measure

Method IV:

Check the label paper pads (the old and new versions of label paper are being replaced, please refer to the actual shipment)

Printing Guide **Select Edit Version**

Printing Guide

Creation Mode

05 Click the print label after editing

06 After the printing is completed, tear off the label

Product Specifications

Product name	Small Label Printer
Product model	D30
Printing technology	Thermal printing
Effective printing width	12mm
Supported consumables	Pre-cut paper, black mark paper, continuous paper
Printing density	Light, standard, dark
Printing resolution	203 dpi
Print head service life	50 KM
Communication interface	Bluetooth 4.2
Product size	131.5*75.5*29 mm (5.2*2.9*1.2 inch)
Power Input	5V --- 2A
Power supply method	Micro USB
	Lithium battery
Supported operating system	Android
	iOS

Daily Cleaning

01 Turn off the printer

02 Use a cotton swab dipped in a little alcohol

03 Wipe the print head gently

04 Wait for the alcohol to evaporate and then turn it on and double-click the power button to print labels

Solutions for Common Problems

Not centered, misplaced, offset, skipped, etc.

Please check Whether the paper roll is correctly placed in the machine?

Please make sure that the label is placed in the machine with printing side facing left. If it is placed incorrectly (reversed), printing will fail.

Please check Whether to select the corresponding label size and pattern in the App?

Whether the matching label size and pattern have been selected in the App. Please confirm the size and pattern on the label packaging, and select the matching template in the App.

Please check After the machine is turned on, whether to click the power button to allow the machine to calibrate and position the label?

When installing or replacing label paper roll for the first time, the user needs to click the power button to print a blank label so that the print head can identify the position of label paper.

Printing blurry

Please check Whether the power of machine is sufficient.

On the "Profile" page, click "Printer" to view the specific power level. If the remaining power of printer is less than 10%, you can charge it for at least half an hour before use.

Solutions for Common Problems

Please check Whether there is foreign matter or glue on the print head?

There is foreign matter or glue on the print head. Please use a cotton swab dip with a little alcohol to gently wipe the dirt on the print head. Do not turn on the machine immediately after wiping. After the alcohol is evaporated and dry, double-click the power button to print the self-check page after turning on the machine to check the effect.

Printer cannot be connected

Please check The status of the printer is on, and the mobile phone bluetooth has been turned on?

Please check Is the device connection performed in App?

This product needs to perform the device connection in App.

Please check Is the mobile phone authorized?

Because of the phone system's requirements, Android phones will use your location when it is connected, and you need to turn on GPS and confirm authorization (other phone systems don't need to turn on this function).

Product Warranty

Thank you for choosing the Small Label Printer.

- ① We will provide customers with reliable "replacement/return" support during the one-year warranty period from the date of purchase;
- ② Please keep the warranty card in a safe place so that you can read it when needed.

Operation guide QR code

This manual has been carefully checked. If there are printing errors or misunderstandings in the content, please consult customer service.

Note: If the supporting software is updated, it will be compiled into the new version of the manual without notice.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
