Percy Interactive Companions Pets

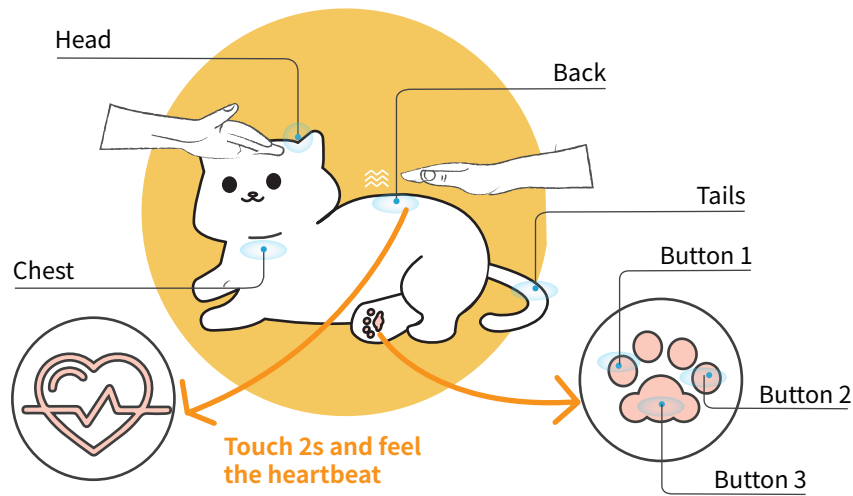

Instruction

01. Fully simulated appearance to real cat-like the companionship of real pets, make sounds and movements & sounds, relax

02. Voice feedback

03. Feel the vivid heart beating by touching it with your hand

04. Rechargeable battery, no need to replace the battery trouble

1. Cat paw button!

- (1) Long press the middle toe of **button 3 for 2 seconds**, there will be a cat purr, indicating that Percy is woken up and switched on; press the button again for **2 seconds the cat purrs**, indicating that it is switched off;
- (2) **Press button 1** to switch between voice on/voice mute modes.
- (3) **Press button 2**, you can adjust the volume. 1-5 volume loop adjustment

2. Voice on mode:

- (1) Touch the sensors on the throat, head, back and tail, and there will be different cat purring and purring sounds in response.
- (2) Voice on mode voice interaction: Say "meow meow" to Percy; "Hello Percy"; "Rise and shine" will make a corresponding cat purr.
- (3) Heartbeat function: Long press the back sensor for more than 2 seconds in any mode, you can feel Percy's heartbeat yo close to a more realistic companion.

3. Voice mute mode:

- (1) Touch Percy in silent mode, it will make purring sound and heartbeat.

4. Automatic sleep function:

More than 10min no interaction with Percy or no use, Percy will automatically enter the sleep function, touch or use again will wake up again.

5. Charging guide

Charging through the Type-c, more simple and convenient to use! Also equipped with a charging indicator light, convenient for customers to observe the charging situation when charging.

Charging port in Percy's leg, pull the button on the control leg and make it be charged, and there are indicators to show the charging status: charging status shows a red light, full of electricity shows a green light.

Note: After fully charged, please make sure button the sleeve for charging port is closed for longer use
