THANK YOU FOR PURCHASING OUR 5.5L AIR FRYER

We hope it will delight you and that it
will get a special place in your home.
Enjoy!

IMPORTANT SAFEGUARDS

When using this appliance, basic safety precautions should always be followed, including but not limited to the following:

1. Do not immerse the housing in water or rinse under the tap due to the electronic and heating components.
2. Avoid any liquid entering the appliance to prevent electric shock or short-circuit.
3. Keep all food ingredients in the basket to prevent any contact from the heating elements.
4. Do not cover the air inlet or the air outlet when the appliance is operating.
5. Do not fill the pan with oil. Filling the pan with oil may cause a fire hazard.
6. Do not touch the inside of the appliance while it is operating.
7. Check if the voltage indicated on the appliance fits the local mains voltage.
8. Never let the power cord hang over the edge of a counter or table or touch hot surfaces.
9. Keep the appliance and its mains cord out of the reach of children.
10. Keep the mains cord away from hot surfaces.
11. Do not connect appliance to an external timer switch.
12. Do not place the appliance on or near combustible materials such as a tablecloth or curtain.
13. Do not place the appliance against a wall or against other appliances. Leave at least 10cm free space on the back and sides and 10cm free space above the appliance.
14. Do not place anything on top of the appliance.
15. Do not use the appliance for any other purpose than described in this manual.
16. Do not operate the appliance unattended.
17. During hot air frying, hot steam is released through the air outlet openings. Keep your hands and face at a safe distance from the steam and from the air outlet openings.
18. Be careful of hot steam and air when you remove the pan from the appliance.
19. If you see dark smoke coming out of the appliance, immediately unplug the Air Fryer and wait for the smoke emission to stop before you remove the pan from the appliance.
20. Ensure the appliance is placed on a horizontal, even and stable surface.
21. The use of accessories is not recommended by the appliance manufacturer as it may cause injuries.
22. This appliance is designed for household use only. It may not be suitable to be safely used in environments such as staff kitchens, farms, motels, and other non-residential environments.
23. Always unplug the appliance while not using.
24. The appliance needs approximately 30 minutes to cool before handling or cleaning safely.

25. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
26. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or a similarly qualified person to avoid a hazard.
27. Young children should be supervised to ensure that they do not play with the appliance.
28. Appliance not intended to be operated by means of an external timer or separate remote-control system.
29. Do not use the Air Fryer outside.

DO NOT THROW AWAY INSTRUCTIONS

CAUTION: Do not leave Air Fryer unattended when in operation. To reduce the risk of fire, keep oven interior completely clean and free of food residue, oil, grease and any other combustible materials.

CAUTION: A fire may occur if the Air Fryer is covered or touching flammable materials including curtains, draperies, walls and the like when in operation or after, when still hot. Do not place any of the following materials in the Air Fryer, on top of the Air Fryer, or in contact with the Air Fryer sides or bottom surfaces: paper, cardboard, plastic or the like.

PRODUCT FEATURES

This product is an electronic time-controlled Air Fryer, suitable for home cooking. Used for baking food, it has the advantages of exquisite design, multiple functions, fast speed and convenient use.

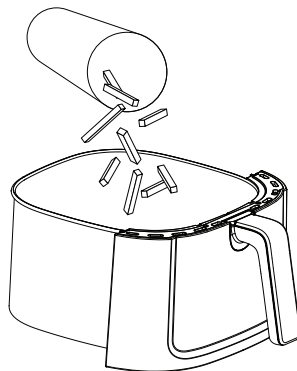

1. Cooking with less oil, healthy and worry-free.
2. Digital display at a glance.
3. Touch control, simple operation.
4. Three-dimensional air duct with uniform thermal field.

HOW TO USE

1. Hold the handle of the fry basket with your hand, pull the fry basket out, and place the fry basket on a flat table.

2. Put the ingredients in the basket.

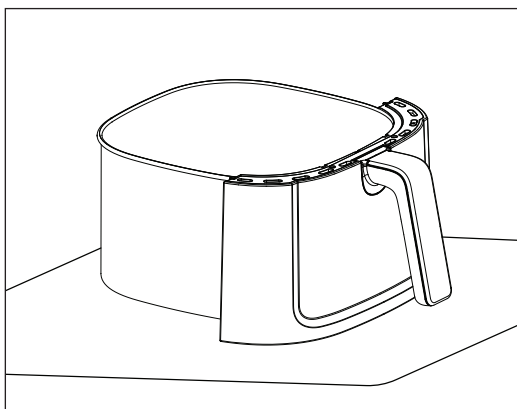

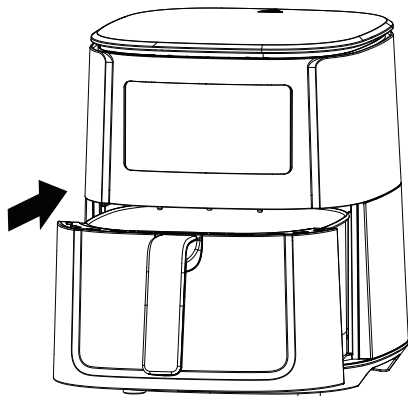

3. Then put it in the Air Fryer.
4. Plug the power cord into the socket.
5. Adjust to the right time and temperature through the control panel.

6. When the food is cooked, unplug it. Carefully take out the fry bucket, hold the handle of the fry basket, pull it straight out, and lay it flat on the table; then take out the baked food.

Please handle it carefully, remember to lay it flat on the table to avoid being burned by steam or dumped by the fry bucket, or burned by oil or hot food

TROUBLESHOOTING

No.	Fault	Causes	Exclusion method
1	No power	The power plug is not inserted in place	Reconnect or find another socket
2		The fry basket is not in place	Pull out the frying basket again returned to the house, assembly in place
3	The motor does not work or there is abnormal noise	Foreign objects are stuck in the fan blades or the air inlet is blocked	Check the air inlet and cavity after power off, If there is foreign matter inside, if there is still a fault, please contact the retailer you purchased this product from or the New Zealand Brabantia Agent toll free number 0800 127 727.

SAFETY PRECAUTIONS:

In order to ensure safe use and avoid injury and property damage to you and others, please follow the safety precautions below. Failure to follow safety warnings and misuse can cause accidents.

SAFETY CARE WHEN COOKING

Please read the following and always use caution when cooking as food can become extremely hot and may cause a hazard.

1. Children should not use the Air Fryer without supervision as it is an electrical appliance and can cause a hazard with extreme high temperatures.
2. Always carefully follow the manufacturer's instruction manual.
3. Use oven gloves to remove food the Air Fryer.

CARE & CLEANING

- Unplug your Air Fryer and allow it to completely cool before cleaning.
- Do not use abrasive cleaners, as they will damage the finish. Simply wipe the exterior with a clean, damp cloth and dry thoroughly. Apply the cleaning agent to a cloth, not directly onto the Air Fryer.
- Please do not use cloth that is too wet to clean the Air Fryer to prevent water from entering the Air Fryer, which may cause short circuit and fire.
- Do not use excess pressure when cleaning the area of the control panel as it could cause damage.
- To clean the interior walls, use a damp soapy cloth or sponge. Never use harsh abrasives or corrosive products including oven cleaner sprays. These could damage the Air Fryer surface. Never use steel wool pads on the Air Fryer or accessories.
- The Air Fryer Basket and Fry Basket Pad should be hand-washed in hot, sudsy water. These parts are not dishwasher safe.
- Always clean the Fry Basket Pad after each use. Excess food particles could cause smoking and will be hard to remove from tray. To remove baked-on grease or burnt food particles you can soak the Fry Basket Pad in hot, sudsy water or use nonabrasive cleaners.

Persons with pacemakers, hearing aids, or cochlear implant users, please consult authorized medical personnel and refer to the instructions of the medical device provider.

NOTE: Do not use any abrasive material or sharp utensils to clean the oven or any of its parts.

NOTE: Allow all parts and surfaces to dry thoroughly before using the appliance again.

SPECIFICATIONS

Rated voltage/ Frequency: 230-240V~50-60Hz

Rated power: 1700W

ENVIRONMENT FRIENDLY DISPOSAL

This marking indicates that this product should not be disposed of with other household waste. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable re-use of material resources. To dispose of your appliance correctly, please contact or take it to your local refuse/recycling centre. Alternatively, contact your local council for information on your local re-use centre. Please make this product environmentally safe for recycling.

WARRANTY

THE WARRANTY WILL ONLY BE VALID IF THE PRODUCT IS RETURNED WITH A PROOF OF PURCHASE TILL SLIP AND ORIGINAL PACKAGING.

Warranty policy

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and not amount to a major failure.

The distributor for Brabantia products in Australia, Sheldon and Hammond Pty Ltd, guarantees this product or domestic use only. No warranty is provided for commercial use. Sheldon and Hammond does not provide warranty for items bought from overseas retailers or from parallel importers.

For all enquiries, please contact Sheldon and Hammond Pty Ltd on our toll-free number 1800 808 9 71.

Warranty exclusions:

The warranty will not be valid if:

1. The product has not been installed, operated or maintained in accordance with the manufacturer's operating instructions provided with the product.
2. The product has been used for any purpose other than its intended function.
3. The damage or malfunction of the product is caused by any of the following:
 - Incorrect voltage
 - Accidents (including liquid or moisture damage)
 - Misuse or abuse of the product
 - Faulty or improper installation
 - Mains supply problems, including power spikes or lightning damage
 - Infestation by insects
 - Tampering or modification of the product by persons other than authorised service personnel
 - Exposure to abnormal corrosive materials
 - Insertion of foreign objects into the unit
 - Usage with accessories not pre-approved by Brabantia

Please refer to and heed all warnings and precautions in this Instruction Manual.

Due to continuous product development, specifications may be subject to change without prior notification.
