NEXiLUX Wii U Pro Turbo controller – Users guide

Button layout:

FIRST USE (pairing): To use the controller, it must be paired with your game console. You must be in the home menu on the console.

- Press the **SYNC** button on the back of the controller. (LED will blink) (controller must be charged)
- Press the **SYNC** button of the Wii U console (You must be in the HOME menu of the console).
- When the Player LED blinking stops, the pairing is complete.

CHARGING: Connect the controller to the Wii U system using the included USB cable. Battery/turbo will turn light up. Once charging is completed, battery/turbo will LED will turn off. If the battery is too low, NATTERY/TURBO LED will indicate RED. Please charge your controller.

Setting & clearing the TURBO button:

- TURBO: Press TURBO + The Button you want to set. Using button Turbo & D-pad can adjust the speed of TURBO.
- CLEAR: Press CLEAR + The Button which has been set with Turbo.

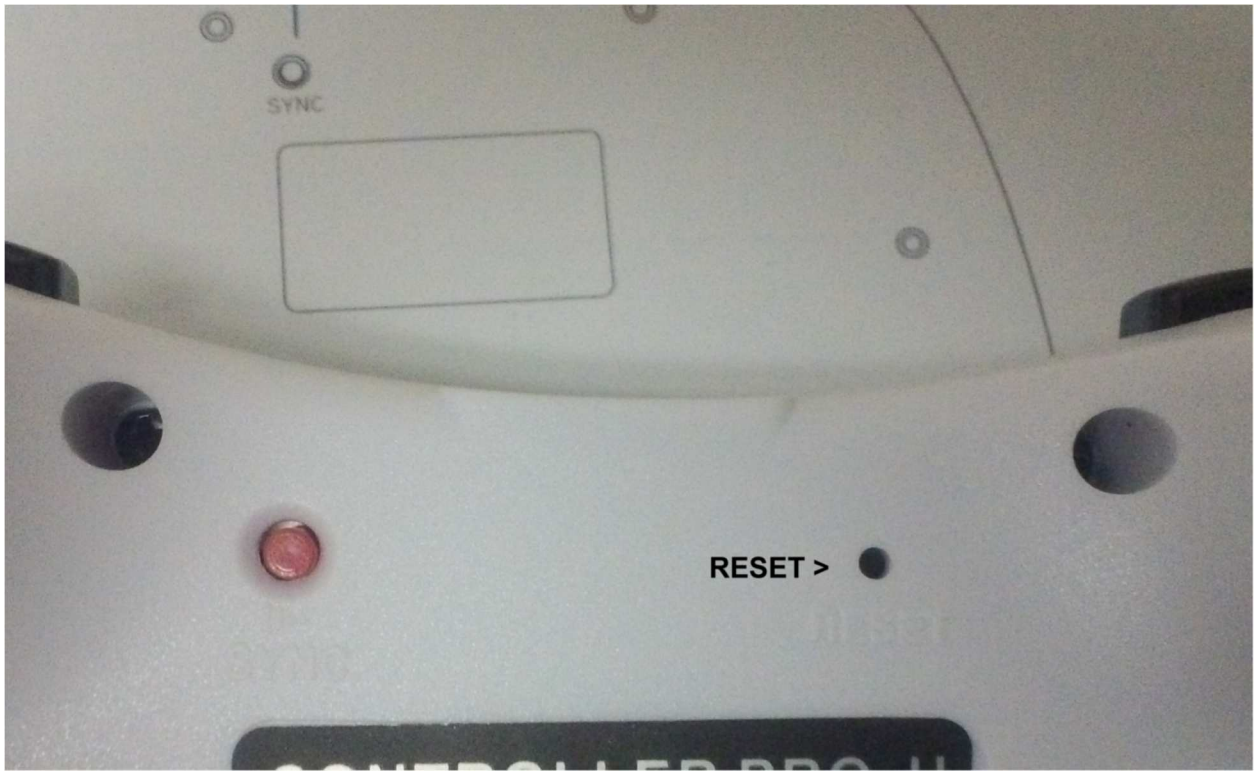

Gentle use of the controller (analog stick & buttons) will ensure a long life of the controller.

Very important: Turbo works with many games but might not work with all games. Just like there are games which do not allow codes, some games have anti-turbo programming which makes the button normal press. This is something that is a cat and mouse games in recent times. One possibility would be slower turbo speed.

Troubleshooting:

Joystick stuck / repeat : Just wiggle the joystick arounds & usually fixed.

Button stuck / repeat: Tap it gently to avoid getting stuck

RESET: This allows the controller to reset to factory default settings. In case of any buttons or turbo being stuck, this can be pressed gentlry for seconds (3-5 seconds) with a small paperclip.

IF ALL FAILS: We apologize for any inconvenience in advance. Please return the product to the seller. In the returned product, please include a note for what has failed so we can perfect the controller and maintain the lowest price possible. We have made changes over time based on some suggestions.

Improving the controllers: We are constantly updating and improving products and services. We might not be able to respond to every suggestions or enquiry but we are always paying attention and doing everything we possibly can to improve products for you. Please let us know if you have any trouble with our products and we will address the issues.
