STEP 1 Fill Scatter-Less Base with Bedding

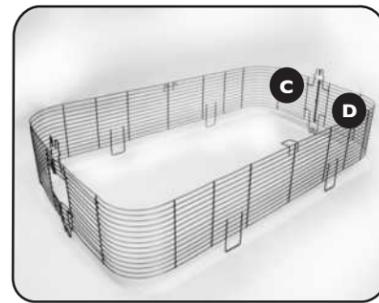

Fill the Scatter-Less base (A) with a liberal amount of bedding material. Try any of our Kaytee® Clean & Cozy™ Bedding Products.

STEP 2 Assemble Wire Panels

onn in o h

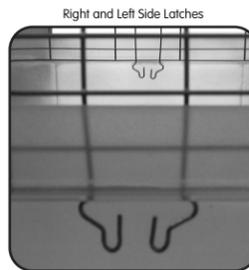

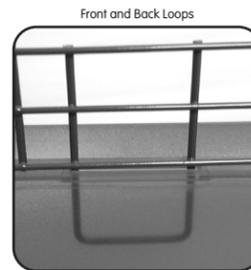

STEP 3 Attaching the Wire Panels

Once you have the wire assembled, be sure the Wire Panels (C & D) are upright with the port door square opening on one side. Place the Wire Panel Set on top of the Plastic Base (A).

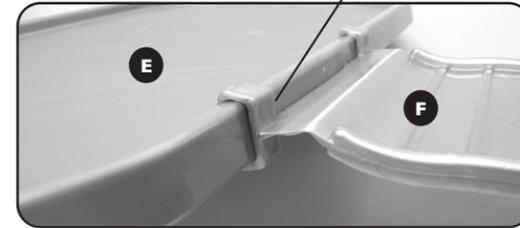

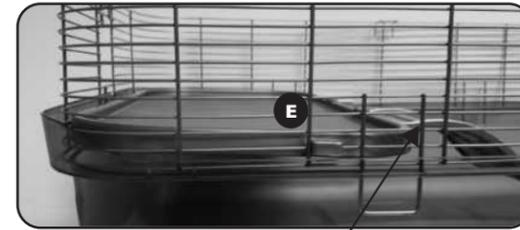

The Wire Panels should fit into the cut outs on the Base (A) at the front and back. Then line up loops at the side of the Wire Panel to the holes provided on the side of the Plastic Base (A) to lock like bunny ear latches into a locked position.

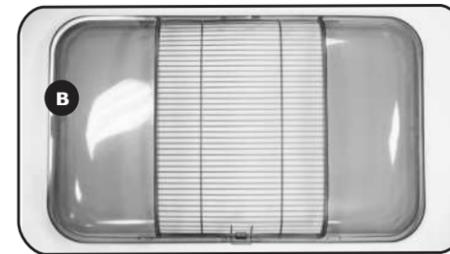

STEP 4 Adding Comfort Shelf & Safety Ramp

Position the Comfort Shelf (E) on the third bar up from the bottom. Attach the Safety Ramp (F) to the Comfort Shelf (E) by clipping the tabs on the Safety Ramp (F) to the edge of the Comfort Shelf (E).

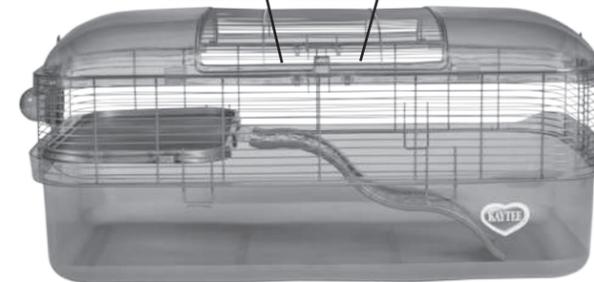

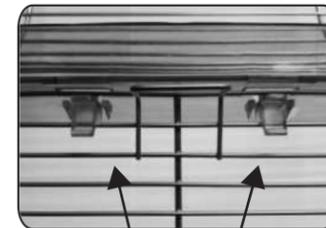

STEP 5 Assembling the Roof Top

Be sure to have the lock on the roof top access door on the Roof Top (B) lined up to the Wire Panels (C&D) and the clips inside the Roof Top (B) will be able to lock in place.

Inside View

Then line up the loops at the sides of the Wire Panel to the holes provided on the side of the Roof Top (B) to lock the bunny ear latches into a locked position.

STEP 6 Adding Port Door

Attach Port Door (G) to the open square on the side of the Wire Panels (C&D). Carefully add the Port Door (G) to the outside of the Wire Panels (C&D) and clip plastic latches at the top and bottom of the Port Door (G) on to the wire. For an extra safety measure add the Bubble Plug (H) to the outside of the Port Door (G).

STEP 7 Adding Accessories

If you choose to add any Kaytee Fun-nel® tubes accessories or CritterTrail® habitats to expand your pet's living space you must punch out the center of the Port Door (G) first. DO NOT punch out the access hole until you are ready to expand your pet's home and have already purchased your accessories! The Port Door (G) access hole CANNOT be closed once opened, but a Bubble Plug (H) is provided to cover the expansion port on the Port Door (G) if you choose to discontinue use of the Port Door (G).

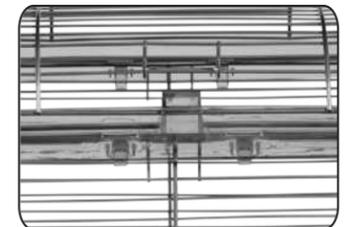

Try out these accessories!

- Lazy Look-Out Kit
- Loop-D-Loop Kit
- Fun Value Straight Tubes
- Fun Value Twist & Turn
- Fun Value Assorted Tubes

SAFETY

To safely secure your pet inside the home, firmly press the latch behind the plastic latch on the Roof Top (B).

CLEANING

To clean your pet's home simply pinch the bunny ear latches on each side of the Cage Wire Set to remove from the base. Empty and Wash the plastic base or spray with Kaytee® Clean Cage (Item #63062), wipe dry, refill with fresh bedding material and replace the wire top onto the Plastic Base. Kaytee® Clean Cage neutralizes odor, safely cleans surfaces and is non-toxic to all pets.
