B. Holding small things for you

★★★★★ **Great Product & Great Customer Service**

By Nick M. on May 5, 2018

Verified Purchase

The legs are super strong. You bend them how you want them and they stay in position. Super portable, fits in my bookbag no problem. I use this to hold my 7" FPV monitor when I'm flying drones. I haven't used it for my phone yet but I'm sure it works well. I had one small issue where I did something wrong and messed up the piece with tripod mount screw. The company asked no questions and sent out a new unit. I would recommend this to a friend

C. Taking nice pictures the easiest way

★★★★★ **I was able to take really nice pictures with it**

By jefte on March 25, 2018

Verified Purchase

It was exactly what I was looking for.. I ordered a second one for my little sister. I took it to my trip to Cancun , Mexico.. I was able to take really nice pictures with it.

D. Filming in the wild

(In this case, recording a proposal on a hike to his girlfriend)

★★★★★ Great Tripod

By Amazon Customer on September 11, 2018

Verified Purchase

This is a great tripod. I needed a small backpacking size tripod to sneak a proposal on a hike with my girlfriend. It held my iPhone 7 Plus very well, and and seems durable. The bendable legs work well on an uneven surface. It was perfect for the big moment.

E. Indoor/outdoor vlogging

★★★★★ It's perfect!!

By Carson Danielle on May 13, 2018

Verified Purchase

I love it!! I use my iPhone for vlogging and this has helped so much! It steadys my camera, positions it where I need it, and can grab onto weird things. 10/10 would recommend. Also the Bluetooth button helps SO much.

F. In solo travel, WHO takes the pictures?

★★★★★ **Great for solo travel**

By [megan Skye Hamilton](#) on August 31, 2018

[Verified Purchase](#)

Used this at my most recent trip to Universal Orlando! I travel by myself so this helped me get photos for social media!!

E. Approaching impossible angles to shoot

★★★★★ **It's really quite nice**

By [Marilyn](#) on April 1, 2018

[Verified Purchase](#)

So I had been looking for a cell holder that would connect to my existing camera tripod. I made a very good choice from the many on the market, as I'm very pleased with my purchase. There is enough adapters to accomplish all your needs. I have a newer phone, so when I set it up to use the remote, it worked flawlessly. I think there's an app for older phones. My #1 want was the cell phone holder. But the remote is awesome at #2. I didn't think when I purchased, I would be using the small tripod, but let me tell you, it's great for taking photos very close to the ground. Very good value. And would purchase again.

General Assemble Instructions

FOR DEVICES

1. For Phones, attach the phone mount to the tripod.
2. For cameras with standard 1/4 screw interface, attach the camera directly to the tripod head.
3. For sports camera like GoPro, use the included two adapters.

The Lock Mechanism

TO REMOVE DEVICES EASILY

1. Push and release the tripod head plate.
2. Hold the metal ring while attaching the phone clip or other accessories.
3. Push and lock the plate back on.
Now it's ready!

How to make the portrait orientation

WITH THE ATTACHED PIECES

1. Take accessories A, B and C out of the box.
2. Assemble them as shown in the right picture.
3. Then you can rotate and lock B to make any angle you want.

How to use the Bluetooth remote

FOR IOS AND ANDROID DEVICES

(The Bluetooth remote's appearance may vary)

1. Turn the remote on with the power button located at the side. The blue LED will flicker.
2. Turn on your phone's Bluetooth setting and connect to device "AB Shutter3" in the available devices list. The blue light will stop flickering once it's connected.

FAQs

1. Can I record video with the remote?

Yes, you can. To make video with the remote, first toggle the power button on (located at the side) and pair the remote with your cell phone (device - ShutterAB 3), then switch your camera app into video mode, that way you can start video recording by just clicking the button, click again to stop video recording.

2. What kind of battery does the remote use?

If you want to replace the battery, you can search and buy CR2032 3V lithium battery.

3. Can it face downwards?

Yes, please attach the accessories included in the box, assemble them following the instructions, then you can rotate the phone holder to make it face downwards.

4. Can it be used with the phone in portrait orientation, not just landscape orientation?

Yes, please attach the accessories included in the box, assemble them following instructions, then you can rotate the phone holder in portrait mode.

FAQs

5. Can I use the phone mount on other tripods?

Yes, you can, as long as the tripod has a standard 1/4 screw mount interface.

6. Does this tripod work with iPhone X?

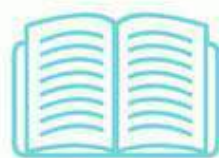

Yes, the phone holder is spring loaded and expands up to 3.75", it fits all iPhones. And the remote can be paired with all iPhones and most Android smartphones.

7. How does the camera adapter work?

The camera adapter you received with the package is for sports camera like GoPros. For other cameras like a digital camera that has standard 1/4 screw, you can just attach it into the tripod, no adapter necessarily.

8. What is your warranty?

Please know UBeesize provides lifetime money back/replacement service for all products, if you have any question that there is anything missing, broken, incorrect, different than you expected, please just contact us and we will try our best to resolve for you timely.
