

630

WHOLE ROOM
AIR CIRCULATOR

About the 630

The 630 Air Circulator continues Vornado's superior benchmark performance with a new edge definition design. With its unique signature grill and deep-pitched propeller, the 630 moves air up to 70 feet, while aerodynamically circulating all the air in a room. The 3-speed control, located on the side of the air circulator's base, is easy to access and allows for speed selection to meet any circulation need. The base of the 630 provides added stability when operating from the floor or desktop. Use the 630 all year long in the home or office for added comfort and energy savings in every season.
