

MOSAIC BALLOON FRAME

Pre-Cut Letter & Shape

INSTRUCTION

What's Included in Your Order:

- Bottom Letter Base
- Pre-Cut Side Walls
- Balloon Glue Dot Roll
- Instruction

What Else You Need:

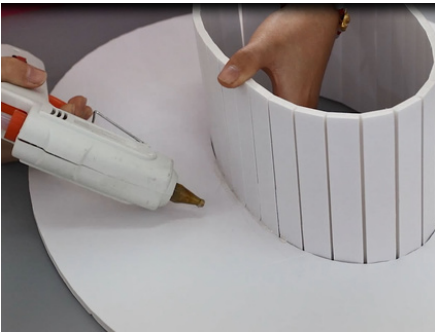

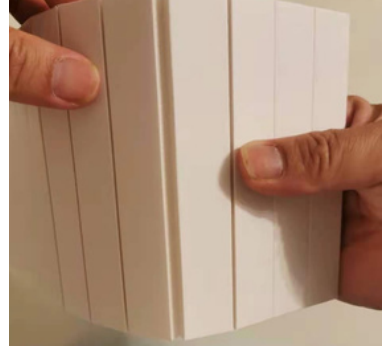

- Hot Glue Gun
- Balloons in different sizes and colors

How To Assemble Balloon Mosaic Balloon Letter Frame

Step 1: Unfold and lay out the bottom base on a flat surface. Before apply any glue, pre-assemble the segments by matching the side walls to the base. (Please make sure you understand the correct placement of each segment before proceeding to use the glue.)

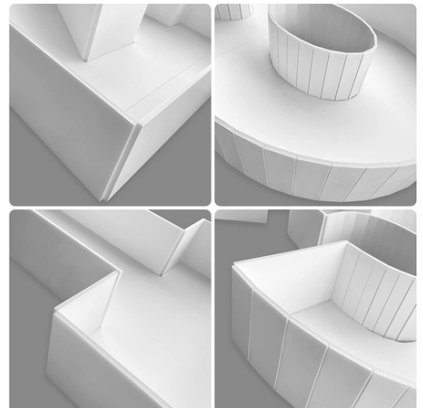

Step 2: After matching all the side walls to the letter bottom base, Start using hot glue gun to glue all the scored lines on the letter base. (Letter base was cut and folded to make shipping easier)

Step 3: Your kit may have straight walls, walls with curved edges, or a combination of both. If you have bendable side walls, simply need to gently press the foam board to open the scored lines and curve the segment. This would allow you to trace and curve out the letter shape.

Step 4: Use your hot glue gun to glue the side walls along the edge of the letter base. (If there are score lines on the side walls, Please make sure all score line sides should always facing out)

Step 5: Repeat Step 4 for the rest of the side wall pieces surrounding the letter bottom base until all of them securely attached.

How To Fill Balloon into Mosaic Letter Frame

Step 1: Lay your sculpture on a flat surface (for example, on the floor). This way, it will be easier to add all the balloons to the frame.

Step 2: Blow up balloons to your desired size – you may use a pump for faster results. We suggest to blow balloons into different sizes for a better Mosaic look.

Step 3: Place larger balloons inside the letter frame, attach them to the foamboard with included glue dot. Keep doing until the letter frame is full.

Step 4: After filled in larger balloons, place the smaller balloon around the larger balloons. This almost creates a mosaic look for your letter mosaic frame.
