1 SPECIFICATION

Unit model:XXXXXX
WIFI Module Model: EU-OSK103,US-OSK103
Standard: IEEE 802. 11b/g/n
Antenna Type: External omnidirectional Antenna
Frequency : WLAN 2400~2483.5 MHz
Operation Temperature:0℃~45℃/32℉~113℉
Operation Humidity: 10%~85%
Power Input: DC 5V/300mA
Maximum TX Power: 19.8dBm

NOTE:
Company will not be liable for any issues and problems caused by Internet, Wi-Fi/Wireless Router and Smart Devices. Please contact the original provider to get further help.

2 DOWNLOAD AND INSTALL APP

CAUTION: The following QR code is only available for downloading APP. It is totally different with the QR code packed with unit.

Android **iOS**

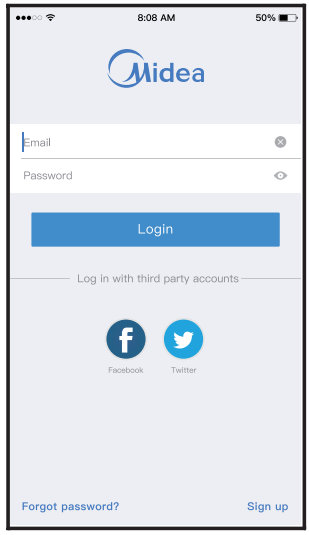
Scan QR code to download the " Midea Air " APP or get it from Google play and app store by manually searching.

3 PREPARATION

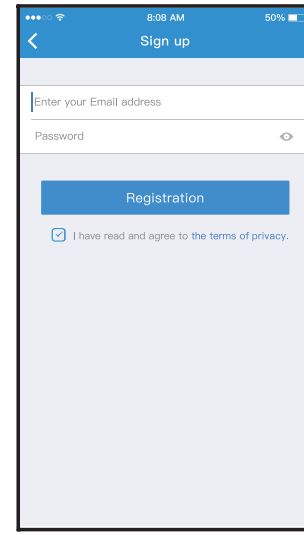
- Please ensure your mobile device is connected to Wi-Fi/Wireless router. Also, the Wi-Fi/Wireless router has already connected to Internet before doing user registration and network configuration.
- Make sure your mobile device has already been connected to the Wi-Fi/Wireless network which you want to use. Also, you need to forget other irrelevant Wi-Fi/Wireless network in case it influences your configuration process.

4 CREATE ACCOUNT

Reminder: When you register to use app, you need read and agree the Data Privacy Notice.



① Click “Sign up”



② Enter your email address and password, and then click “Registration”

5 NETWORK CONFIGURATION

Cautions

8 APP DECLARATION

- **Applicable system:IOS,Android.**

① APP can not support the latest software version of Android and IOS system.

② Due to special situation may be occurred,we explicitly claims below:Not all of the Android and IOS system are compatible with APP.We will not be responsible for any issue as a result of the incompatibility.

- **Wireless safety strategy**

  Smart kit only support WPA-PSK/WPA2-PSK encryption and none encryption. WPA-PSK/WPA2-PSK encryption is recommended.

- **Cautions**

① Due to different network situation,control process may return time-out sometimes. If this situation occurs,the display between board and App may not be the same,please do not feel confused.

② Smart Phone camera needs to be 5 million pixels or above to make sure scan QR code well.

③ Due to different network situation,sometimes,request time-out could happen,thus,it is necessary to do network configuration again.

④ The APP system is subject to update without prior notice for product function improvement. The actual network configuration process may be slightly different from the manual, the actual process shall prevail.

⑤ Please Check The Service Website For More Information.

- **Declaration of conformity**

CONTAINS FCC ID: 2ADQOMDNA19
CONTAINS IC : 12575A-MDNA19

This device complies with Part 15 of the FCC Rules and Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions:

(1) This device may not cause interference;and

(2) This device must acceptany interference,including interference that may cause undesired operation of the device.

Only operate the device in accordance with the instructions supplied. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

Hereby, we declare that this AC is in compliance with the essential requirements and other relevant provisions of RE Directive 2014/53/EU. A copy of the full DoC is attached.

NOTE:
All the illustrations in the manual are for explanation purpose only. Your unit may be slightly different. The actual shape shall prevail.
