

Cabinet Caddy

SETUP & USE

Thank you for purchasing the Cabinet Caddy®, instant-access organizer. Getting organized couldn't be easier!

WHAT'S IN THE BOX?

Cabinet Caddy

U-Clip
(stored in the base)

Stick-on Labels

Stability Inserts
(for small bottles)

KNOW YOUR CABINET CADDY

Made of ABS for strength and stability.

Stick-on labels show you which way to rotate the shelves.

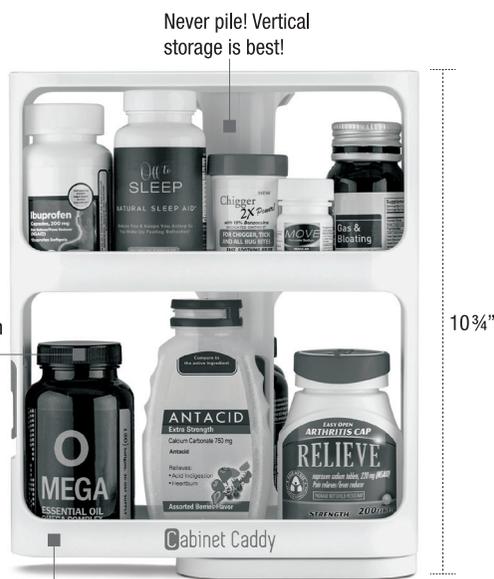

Lift the handle, pull and rotate shelf towards the center.

Equipped with 4 high-friction 3M feet, as well as a 3M adhesive pad to secure the base.

5¼"

Wider shelves store more than spice bottles.

Never pile! Vertical storage is best!

10¼"

Designed to fit standard 12" cabinets. Great for cupboards and countertops too!

No assembly required.
Product Dimensions:
10.75" H x 5.25" W x 10.75" D

SETUP

1. Choose the cluttered area and items you would like to organize.
2. Grab the sheet of Stick-On Labels and choose a category (ie. spices) or use the blank labels and write your own. Notice there is a LEFT SIDE label and a RIGHT SIDE label. Choose your category and place the LEFT SIDE label on the LEFT handle and the RIGHT SIDE label on the RIGHT HANDLE. **IMPORTANT:** The arrows ↷ on the labels show you which way the shelf will rotate.
3. Set the Cabinet Caddy in its desired location. The unit is designed to stay put with its four, 3M feet on the base. If you need more stability, use the 3M adhesive pad to adhere the Cabinet Caddy to any surface. If you use the 3M adhesive pad, wipe down and dry the area to remove any dust.
4. **FILL IT UP!** The Cabinet Caddy works best when the shelves are full. If the shelves are not full, or you are organizing smaller items, use the FOAM STABILITY INSERTS to keep small bottles from tipping.

Cabinet Caddy

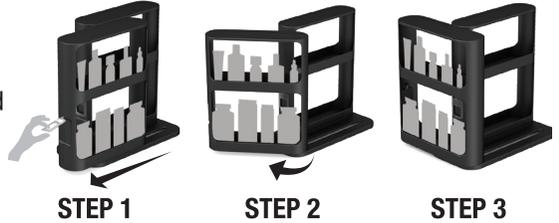

- Pull-out and rotate for easy access
- Double-decker shelves maximize vertical space
- Modular design allows units to sit side-by-side
- Holds a variety of bottle sizes
- Fits standard 12" cabinets

USING YOUR CABINET CADDY

STEP 1: Lift the handle and pull the shelf all the way out.

STEP 2: Rotate the shelf towards the center. Just follow the arrows  molded into the base or printed directly on the Stick-On Labels.

STEP 3: Instant access to your organized items.

MORE TO ORGANIZE?

The Cabinet Caddy Design allows multiple units to sit side-by-side. Use 2 or more caddies to create a library of organization.

WHAT TO ORGANIZE?

- Spices
- Prescriptions
- Vitamins
- Hardware
- Grooming Supplies
- Essential Oils
- First Aid Kit
- Crafts & Paints
- Shoe Shine Kits
- So Much More!

MAXIMIZE STORAGE BY CONNECTING TWO OR MORE UNITS SIDE-BY-SIDE

OPTION 1: Simply set them side-by-side. The four, high-friction 3M feet and *optional* 3M adhesive pad will keep the units from sliding.

OPTION 2: Link units together with the U-clip stored in the base. Tilt the Cabinet Caddy on its side and locate the U-clip in the base. Remove the U-clip by firmly pulling left and then out with your thumb (Fig. 1). Place two units together side-by-side. Slide the two shelves forward, exposing the two adjacent latch holes. Insert the clip (Fig. 2). Slide U-clip forward forcefully, until it snaps (Fig. 3).

REMOVING THE U-CLIP
