Safety Precautions

This manual uses the following symbols to ensure that the XP-PEN Tablet is used correctly and safely. Be sure to read and observe the Safety Precautions.

Do not use this product in a control system area that requires a high degree of safety and reliability.

In such a system, this product could negatively affect other electronic devices and could malfunction due to the effect of those devices.

Turn the power off in areas where use of electronic devices is prohibited.

Turn the power off your tablet when onboard an aircraft or in any other location where use of electronic devices is prohibited, otherwise it may negatively affect other electronic devices in the area.

Unplug the USB connector from this product and turn the power off.

Keep the product away from infants and young children.

Accessories to this gadget may present a choking hazard to small children. Keep all accessories away from infants and young children.

CAUTION

Do not place this product on unstable surfaces.

Avoid placing this product on unstable, tilted surfaces or any locations exposed to excessive vibrations. This may cause the tablet to fall or impact surfaces which can result in damage and/or malfunction to the tablet.

Do not place heavy objects on top of this product.

Do not place heavy objects on the product. Do not step on, or place your body weight on this product as this may cause damage.

Avoid extreme high or low-temperature exposure to the XP-Pen tablet.

Do not store this product in areas that drop below 5°C or above 40°C. Avoid locations with excessive temperature fluctuations. This may result in damage to the product and its components.

Do not disassemble

Do not disassemble or modify this product. Doing so may expose you to heat, fire, electric shock and injury. Disassembling the product will void your warranty.

Do not use alcohol for cleaning

Never use alcohol, thinner, benzene or other mineral solvents that may discolor and cause deterioration to the product.

Do not expose to water

Be cautious of water and all liquids that may be near the tablet. Exposure to water or liquid could damage the product.

CAUTION

Avoid placing metallic objects and especially magnetic objects on the tablet.

Placing metallic and/or magnetic objects on this product during operation may cause malfunction or permanent damage.

Do not strike the pen against hard objects.

Striking the pen against hard objects can cause damage to the pen.

Avoid gripping the pen too tightly, and DO NOT use excessive weight/pressure on the Express Key button and pen.

The stylus pen is a high-precision instrument. Avoid pressing too tightly on the Express Key button, and keep any objects from covering the pen to avoid potential damage. Keep the pen away from areas of high dust, contaminants, or any particulate matter that can effect or damage the pen.

- Mac OS X 10.8 or above

NOTES :

- (1). **Disable any antivirus or firewall software and close any non-essential background software before beginning the installation. Some software, such as OneDrive and Dropbox, may monopolize important files and prevent a successful installation. On a Windows operated computer, check the system tray on the bottom-right of the screen and close any software unrelated to your computer hardware.**
- (2). **Uninstall any existing tablet software before attempting to install the Deco 01 driver. Other tablet drivers will conflict with the Deco 01 driver or prevent installation entirely.**
- (3). **Please download the latest driver version from the XP-Pen website (www.xp-pen.com) and be sure to extract the .zip file contents before running ".exe" or ".pkg."**

Windows

- (1). Connect the Deco 01 to your computer with the included USB cable.
- (2). Download the Deco 01's latest driver from the support section of our website, www.xp-pen.com
- (3). Extra the .zip file contents before running ".exe".
- (4). After a successful installation, the driver's icon () will appear in your system tray and on your desktop. If the icon is not present, uninstall the driver, reboot, and repeat step 2.

Mac

- (1). Connect the Deco 01 to your computer with the included USB cable.
- (2). Download the Deco 01's latest driver from the support section of our website, www.xp-pen.com
- (3). Extra the .zip file contents before running ".pkg".

NOTE:

When attempting to reinstall the Deco 01 driver, be sure to reboot your computer after the uninstallation is complete.

{ VI. FAQ }

1. I can't use the stylus to control the cursor.

- a. Does the tablet's status indicator light come on when the stylus is in contact with the working area?
- b. Yes: Uninstall the Deco 01 driver. If its uninstaller will not run, run the driver's installer again, then uninstall. Reboot, then connect the tablet to your computer and test your stylus.
If the cursor responds to your pen input, the tablet's hardware is functional. Reinstall the Deco 01 driver according to these steps (Windows):
- c. Download the tablet's latest driver from www.xp-pen.com, then extract the .zip contents to the desktop.
- d. Close all non-essential software and processes (Some software may use the wintab process and interfere with the driver installation. OneDrive in particular often causes issues; its system tray icon looks like two grey clouds.).
- e. Open C:\Windows. Using the “search” box near the top-right of the window, search for “WinTab32.dll” and delete any instances.

- d. Connect the tablet and power it on, then run the driver installation. Complete the installation, then reboot.
- e. If the tablet's system tray icon is not visible after rebooting:
- f. Open C:\Windows. Open File >> Folder and Search options >> View. Enable "Show hidden files and folders," then exit options. Search for "wtclient." Right-click both instances and "Run" each as Administrator. The driver icon should appear.

2. How do I know that the Deco 01 driver installed successfully?

After installing the driver, the Deco 01's driver icon  should be visible in your system tray on the bottom-right of your screen (Windows OS) and desktop. Pen input will control the cursor and pressure sensitivity will be functional in the driver.

3. How do I determine if a problem is software or hardware related?

- a. Connect and install the Deco 01 on a different computer. If the tablet functions properly on the new computer, you are experiencing a software issue—confirm that ALL tablet drivers (including the Deco 01) are uninstalled and removed from your computer, then reinstall the Deco 01.
- b. The Deco 01's indicator lights will help you determine if an issue is hardware-related. When functioning properly, the white status indicator light will light up when the stylus pen is in range of or touching the tablet's working area.
