

2.What if the power strip can not charge or supply power for my device?

- Make sure switch on the power/circuit breaker switch button of power strip.
- Check and ensure the current and voltage meet the requirements of your devices.
- Check and ensure the USB ports and your device are firmly connected.
- Check and ensure the adapter plug of your device is correctly and thoroughly plugged into the AC power outlet.

Caution

1. Use ONLY in indoor and dry environments; Avoid placing it in hot, humid, greasy, corrosive environments or exposing it to the sunlight for a long time.
2. The connected electric devices' total power should not exceed the rated power.
3. These conditions that front-end grounding does not fully penetrate the socket or non-normative grounding will lead to danger.
4. Do not dismantle the desktop power strip.
5. Do not bind or fold the power cable during working time to avoid superheat or other damages.

Warranty

This iClever IC-BS01 Desktop Power Strip has a full 12-month warranty against manufacturing defects starting from the purchase date.

BOOSTSTRIP SERIES

Desktop Power Strip

Model: IC-BS01

User Manual

Product Description

Featuring with 4 USB charging ports and 2 surge protected AC power outlets, this iClever desktop power strip is a professional workstation for your multiple devices such as computers, printers, home theater system and USB-enabled devices simultaneously. With SmartID technology, the USB ports can identify particular devices and ensure maximum charging efficiency. Its surge protected outlets protect your devices from voltage fluctuations, surges and spikes. With this portable desktop power strip in hand, you can solve nearly all power exhaustion problems at ease.

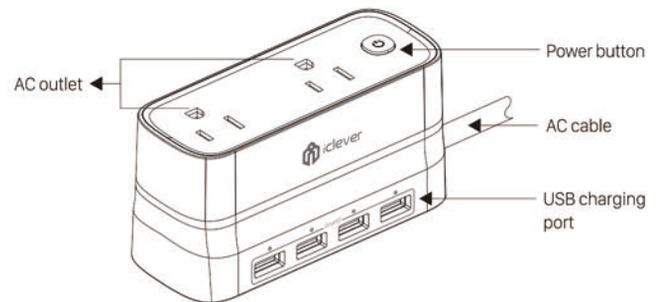

The SmartID Technology

With the latest SmartID technology, each USB port can intelligently identify your device and the maximum amount of power it is calling for. Hence it can guarantee full speed charging across all these ports for your devices. No matter what brands or models it is plugged, you can enjoy maximum compatibility and charging speed for devices.

Specifications

Input	AC 100-240V/10A 50-60Hz
Rated power	1000W
USB output	4*USB 5V/4.8A(each 2.4A Max.)
Switch	Power/circuit breaker switch
Power cable length	About 1.5m

Package Contents

- 1 x iClever Desktop Power Strip
- 1 x User Manual
- 1 x Warranty Card

FAQs and Solutions

1. Which USB charging port should be used to charge my device?

Thanks to the SmartID technology, there is no need to worry which port is suitable for your device. Each USB port can intelligently identify your device and ensure the maximum charging efficiency it is calling for, therefore providing up to 2.4A per port for your electronic devices.
