IMPORTANT SAFETY INFORMATION

To reduce the risk, follow these basic safety precautions.

WARNING

- Before using check that the voltage power corresponds to the one shown on the appliance nameplate.

- This appliance **must be** grounded.

- Avoid the use of an extension cord because it may overheat and cause a risk of fire. However, if it is necessary to use an extension cord:

  1) **Use only** extension cord with grounding plug.

  2) The marked rating of an extension cord **must be** equal to or greater than the rating of this appliance.

- **Do not** operate if any component, including the cord or plug, is damaged.
- Unplug the unit before cleaning by hand and when not in use.

- Children or mentally/physically unable personnel are not allowed to operate the ice maker.
- **Do not** place the power cord in such a way it could be pulled on by children or cause a tripping hazard.
- Closely watch children who are near the unit when making ice.

- **Do not** use water that is micro-biologically unsafe or of unknown quality.

- **Do not** remove any safety, warning, or product information labels from the unit.

- **Do not** touch the evaporator with your hands while the ice maker is operating.
- **Do not** plug or unplug the unit with wet hands.

- The unit **must be** properly installed and located following the installation instructions before it is used. The unit is for indoor household use only.

- **Do not** store or use flammable vapors or liquids near the unit.
- **Do not** immerse any part of the unit in water.

- **Do not** attempt to disassemble, repair, modify or replace any part of the ice maker without permission.

WARNING

FIRE OR EXPLOSION HAZARD Flammable Refrigerant

This unit contains an isobutane refrigerant, also known as R600a, a natural gas with high environmental compatibility. However, it is also combustible. Adhere to the warnings below to reduce the risk of injury or property damage.

1. When handling, installing and operating the unit, care should be taken to avoid damage to the refrigerant tubing.

2. Disposal of the unit under Federal and Local Regulations. Contact your local authorities for the environmentally safe disposal of your refrigerator.

3. Keep ventilation openings in the unit enclosures or the built-in structure clear of obstruction.

4. **Do not** place the unit near heat sources such as an oven.

5. Ensure a minimum of three inches of clearance around the side and back walls of the unit for proper air circulation.

6. **Do not** place the unit in direct sunlight.

⚠ DO's & DON'T's while cleaning and maintaining

- **Do not** use organic solvent, boiled water, detergent, strong acid and strong alkali etc. for cleaning.
- Please **empty** the water reservoir and **dry it** for storage if the unit is not used for a long time.
- When the unit is not to be used for a long duration, **drain** the water completely & dry the interior.
- **Store** in a well vented area.

PRODUCT SPECIFICATIONS

Model	SLIM01W/SLIM01B
Voltage/Frequency	115V/60Hz
Ice-making Current	1.7A
Ice-harvest Current	2.0A
Working Power	≤160W
Water Reservoir	2L (0.53gal)
Ice Basket Capacity	1.32 lbs (0.6Kg)
Ice Making Rate	26 lbs per day
Ice Shape	Bullet
Ice Size	Small or Large
Material	ABS, PP

TROUBLESHOOTING

Problem	Possible Causes	Solution
Poor ice-making result.	Poor heat dissipation.	Leave a 6-inch clearance on all sides of the ice maker for ventilation.
	The water temperature is too high.	Fill with water temperature between 8°C and 25°C.
	The ambient temperature is too high.	Use the ice maker in room temperatures between 10°C and 32°C.
	Evaporator deformation	Please contact the customer service.
Ice maker creating noise.	Ice maker has not been cleaned for a long time, which will form a sticky substance around the inlet of the water pump.	Clean every 1 to 2 weeks, and some neutral cleaning agents (such as detergent and soapy water etc.)
	Lack of water to pump will create noise when pumping water.	Add more water.
	Fan or ice-maker is damaged.	Please contact the customer service.
	Water pump is damaged.	

Problem	Possible Causes	Solution
"ICE FULL" Light is on.	Ice is blocking the infrared sensor.	Empty the ice basket.
	Infrared sensors do not work.	1. Wipe clean the infrared sensors. 2. Contact customer service if the infrared sensors still don't work.
Ice sticks together.	Making ice takes too long.	Stop making ice, after the ice melts restart and try again.
	The water temperature is too low.	Fill with water temperatures between 8°C and 25°C.
	Evaporator deformation.	Please contact customer service.
Not making ice.	Ambient or water temperature is too high.	Keep ambient temperature less than 32°C and fill cold water.
	Water pump is damaged.	Please contact customer service.
	Refrigerating system leaking.	
	Refrigerating system blocked.	
	The fan stopped working.	
	The wires are loose.	
	The gears in the motor are broken.	

Problem	Possible Causes	Solution
"ADD WATER" Light is on.	Low water level or lack of water.	Stop making ice, refill water, press "ON/OFF", then restart and try again.
	Water screen blocked at the bottom of the water reservoir.	Start the self cleaning function.
	Pump malfunction.	Please contact customer service.
	The water detector malfunction.
