

Quick Guide

1

Power on: Blue light flashing

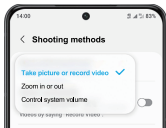

2

Pair: Search for "AB Shutter3" to connect

Unable to take photos via Bluetooth remote

Some Android users noticed that the Bluetooth remote connects successfully, but it can not take photos, please follow the steps:

- 1 Go to your phone's camera setting.
- 2 Find the "Shooting methods".
- 3 Change "Volume Key" to "Take picture or record video".
