ELECTRIC SPIN SCRUBBER

7 in 1

Model: **A10**

USER MANUAL

* Please read this manual before use.

Product Structure

Function is Introduced

Products utilize high-performance lithium batteries and a 390-strong magneto, featuring two speeds. They come equipped with seven brush heads for convenient replacement based on various needs. The devices support USB charging through an international standard TYPE-C charging line, providing a quick 3-hour charge. The circuit design includes charge and discharge protection functions, blocking protection, low power reminders, charging instructions, and a five-section LED power display. Additionally, the product conforms to safety certification and environmental standards applicable in all countries worldwide, ensuring a reliable and eco-friendly experience.

Features

Charging Guide

As shown in the picture, the last battery bar flashes when battery is low.

Please use a 5V/1A or above adapter to charge. When charging, the 5-bar light flashes like a horse race. After being fully charged, the indicator light will light for 5 mins and then turn off.

NOTE:

This product does not support use while being charged.

Brush Head Assembly Method

01 When replacing the brush head, please turn off the machine.

02 Gently swing the brush head and pull it out vertically.

03 The groove of the brush head corresponds to the convex groove of the connecting bracket and snaps in vertically.

04 4 pieces need to be installed on the magic sticky base to use.

Handle Assembly Method

01 The rod with the threaded end is rotated and tightened with the machine head.

02 Rotate and tighten the two pole sections as shown in the picture.

03 Rotate the indicator arrow to align with "ON" to unlock, and adjust the extension rod to the length you need.

04 Rotate the indicator arrow to align with "OFF" to lock and secure the extension rod.
