GET LOW LIMBO®

ASSEMBLY INSTRUCTIONS:

1. Begin by assembling the base pieces. Take **Base Piece A** and slide it onto **Base Piece B**.
2. Take a **Bottom Pole** and screw one into each assembled base piece.
3. Take a **Top Pole** and screw one into each **Bottom Pole**.
4. Assemble the **Limbo Bar** by connecting the two red pieces with the **Bar Connector** and you're ready to play!

Note: The red pins are fitted tightly into the limbo poles and are not intended to be removed. If any pins should fall out, simply place them back in the hole. If you misplace/break a pin, please reach out to customer service for replacements.

WARNINGS:

- Limbo by nature requires players to bend backwards, so it should only be used by limber players who are in good health
- Only play on a padded or soft surface and be careful not to fall backwards when trying to go under the bar
- Be careful not to hit the 2 upright poles when going under the bar as it may cause the limbo bar to fall off causing bodily harm
- Only 1 person should attempt to go under at a time and spotters should be ready to catch the limbo bar if it falls
- Only use with competent adult supervision
- Stop use immediately if any parts break or are missing and contact customer support at **Info@PlayGoSports.com**

CUSTOMER SERVICE:
