Words from The Product Designer

Hey there,

I'm Mason, the founder of Glocusent. I'm excited to introduce Glocusent Neck Light, a revolutionary product designed to combine style, convenience, and portability. Meanwhile, I want to share the reasons behind creating this neck light and the key benefits it brings to all the avid readers, knitters or craftsmen.

We understand the joy and importance of reading. However, traditional book lights have limitations, requiring hand usage or taking up desk space. That's why we developed a hands-free lighting solution. Glocusent Neck Light's unique design integrates a comfortable neck bracket, allowing you to carry it effortlessly and illuminate your books or target area anywhere. Whether in bed, on the couch, or on the go, you can enjoy reading with freedom and comfort.

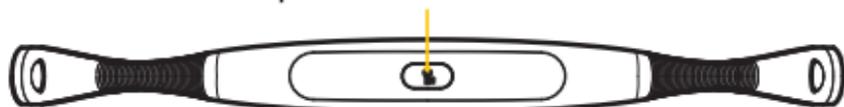

Our aim is to enhance your reading experience with Glocusent Neck Light. By eliminating lighting constraints, you can immerse yourself in the world of words and explore knowledge without disturbing your neighbor. This portable neck light will be your trusted reading companion.

As an industry leader, Glocusent is driven by passion and innovation. We envision creating a better reading experience for book enthusiasts worldwide. With your collaboration and feedback, we will continue to improve and innovate.

We look forward to being part of your reading journey and shaping the future of reading together.

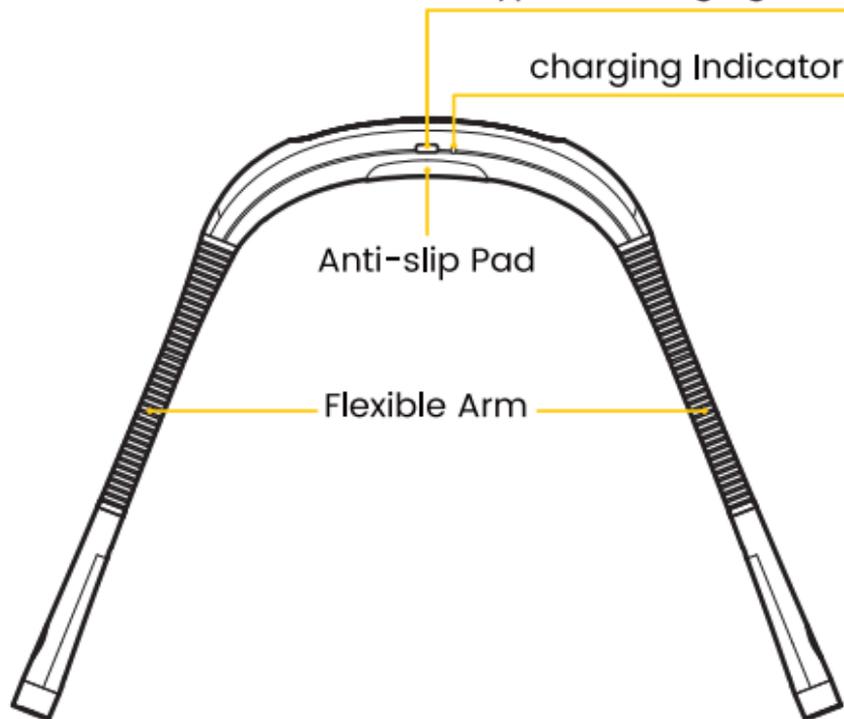

Sincerely,
Mason

Precautions

- Use 5V=1A output wall plug to make sure the neck light is working at its full capacity.
- The power indicator light will turn red when the neck light is connected with power.
- Please avoid placing this light in an extreme temperature environment (either too hot or too cold)
- Disposal: when you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

Safety Warnings

- Do not charge the device for more than 6 hours, and especially avoid charging it overnight, as overcharging may lead to overheating and damage to the battery, potentially causing a safety hazard.
- Avoid charging the device in high-temperature and high-humidity environments, such as kitchens, to prevent malfunction or performance degradation.
- For your safety, do not charge the device on soft surfaces such as pillows, beds, or blankets, as this may obstruct heat dissipation and pose a risk of overheating.
- For your safety, always use a certified charger.

How to Charge the LED Neck Reading Light

- ① Plug the Type-c cable into the charging port, and connect it with a 5V=1A power plugger.
- ② It takes about 3 hours to fully charge the LED neck reading light.
- ③ Please fully charge the product before first use.

Note: The indicating light is in solid red when it's charging, and the indicating light will be green when the book light is fully charged.

Vorsichtsmaßnahmen

- Verwenden Sie einen 5V–1A Wandstecker, um sicher zu stellen, dass die Halsleuchte mit ihrer vollen Kapazität arbeitet.
- Die Strom-Kontrollleuchte wird rot leuchten, wenn die Halsleuchte an das Stromnetz angeschlossen ist.
- Vermeiden Sie es bitte, dieses Licht in einer Umgebung mit extremen Temperaturen (zu heiß oder zu kalt) aufzustellen.
- Entsorgung: Wenn Sie bereit sind, das Produkt nach dem Gebrauch zu entsorgen, stellen Sie bitte sicher, dass Sie die Anweisungen Ihrer örtlichen Behörden für Umwelt- und Sicherheitszwecke befolgen.

So Laden sie die LED-Hals-Leselampe

- ① Stecken Sie das Type-C Kabel in den Ladeanschluss und verbinden Sie es mit einem 5V–1A-Stecker.
- ② Es dauert etwa 3 Stunden, um die LED Hals-Leselampe vollständig zu laden.
- ③ Bitte laden Sie das Produkt vor der ersten Verwendung.

Hinweis: Während des Ladevorgangs ist die Anzeigelampe rot, und wenn der Ladevorgang abgeschlossen ist, wird sie grün.

Precauzioni

- Utilizzare la spina a muro con uscita 5V–1A per assicurarsi che la lampada da collo funzioni alla massima potenza.
- La spia dell'indicatore di alimentazione diventa rossa quando la lampada da collo è collegata all'alimentazione.
- a temperatura estrema (troppo caldo o troppo freddo).
- Smaltimento: Una volta terminata la vita utile del prodotto, è necessario seguire le istruzioni per lo smaltimento della autorità locale per scopi ambientali e di sicurezza.

Come Caricare la Lampada di Lettura da Collo a LED

- ❶ Inserire il cavo Type-C nella porta di ricarica e collegarlo a una presa di alimentazione 5V=1A.
- ❷ Ci vogliono circa 3 ore per caricare completamente la lampada da lettura da collo a LED.
- ❸ Caricare completamente il prodotto prima dell'uso iniziale.

Nota: La spia è di colore rosso fisso durante la carica, e diventerà verde quando la lampada da lettura è completamente carica.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles: glory, focus, and moments.

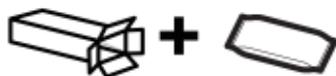

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that glory.

Focus: Our team at Glocusent is focused on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
