Installation

- Remove the trunk and take out all accessories.
- Unlock the buckle to remove the cylinder.
- Install the AI camera, then insert the four screws in numerical order and tighten them with the hex key.
- Place the cylinder on the base and lock the buckle, ensuring it is fastened.
** Handle it gently and do not bump the AI camera.*
- Remove the refill ring cover, put the refill ring in, and put the cover back.
- Install the trunk, ensuring that it attaches to the magnets on both sides.
- Open the lid, place the N60, and close the lid.
- Plug in the device. The AI camera will rotate to reset, and the cylinder will reset. Pour in the cat litter, and level the cat litter in the App.
