ABOUT COWAY

Our obsession with home health began in Korea in 1989. Today, Coway is proud to bring our award-winning products and home health expertise to the US with Coway Airmega air purifiers, Coway Bidetmega for bathrooms and Coway Aquamega water purifiers. Since our founding, Coway has become a global leader in intensive research, engineering and innovation, amassing over 5,000 intellectual property rights in all.

The Coway R&D Center, an environmental technology research institute, has 366 researchers, developing technologies around all aspects of life. The center also serves as our environmental quality, design and cosmetics institute.

Whether researching billions of data points to document air quality, conducting hundreds of tests to create the perfect seat for every body shape, or employing twenty-three certified water sommeliers—when we say we're obsessed with health, we mean it.

[2]The coverage area of the air purifier is based on an area where the air cleaner can make two air changes per hour (ACPH). An air change per hour translates to how many times an air purifier can clean an area, assuming the height of a ceiling to be 8ft, in one hour. Therefore * means two air changes per hour means that the cleaner can clean the area once every 30 minutes. The ** means air changes per hour means that the air purifier can clean the area once every 15 minutes and *** means air changes per hour means that the air purifier can clean the area once every 12.5 minutes.
