CARE AND MAINTENANCE

- To prolong the life of your stroller keep it clean and do not leave it in the direct sunlight or in the car boot for extended periods of time.
- Removable fabric covers and trims may be cleaned using warm water with a household soap or mild detergent. Allow it to dry fully, preferably away from the direct sunlight.
- Non removable fabric covers and trims may be spot cleaned using a damp sponge with soap or a mild detergent. Allow it to dry completely before folding or storing it away.
- In some climates the covers and trims may be affected by mold and mildew. To help prevent this occurring, do not fold or store the product if it is damp or wet.

Always store the product in a well ventilated area.

- When using your stroller at the beach - completely clean your stroller afterwards to remove the sand and salt from the mechanisms and wheel assembly. Sand and salt will cause premature wear and corrosion.
- If there are compression marks on the wheels - Use a domestic hair dryer to gently warm (DO NOT OVERHEAT) the wheels and the compression marks should slowly disappear.
- Always check parts regularly for tightness of screws, nuts, and other fasteners. Tighten if required. To maintain the safety of your nursery product, seek prompt repairs for bent, torn, worn or broken parts.
