Do not use this product in direct sunlight or near a heat source

Use clean or distilled water in the tank. Hard water areas will

such as a stove, heater or radiator.

require more frequent cleaning.

FUNCTIONS ON/OFF Power On/Off & Mist Level Setting 1. Plug in the humidifier 2. Power On: Turn the knob dial to the clockwise until it 'click' to turn on the humidifier. The indicator light would be green and produce mist. 3. Mist Level Setting: Rotate the knob dial to adjust the mist level. 4. Power Off: Turn the knob dial counter clockwise until it 'click' again to turn off the humidifier. **Auto Shut-off** When the humidifier runs out of water, it would stop producing mist and the indicator light turns red. **IMPORTANT TIPS** Max line

1. DO NOT fill humidifier above the Max Line. This can cause little

airflow is. Placing a humidifier in a corner, on the floor, or near a

wall where get less airflow, will get localized higher humidity

3.It is not recommended to place this humidifier directly on wood furniture or floor, because the locally high humidity levels may

if you place the humidifier on a non-waterproof surface.

affected if you do that.

4. Place this product on cloth or carpet that may block air inlet.

Attention to whether the mist output of the humidifier is

wet the surroundings. Please put a tray underneath the humidifier

2.Please always place this humidifier on a firm, flat & waterresistant surface at least 2-4 feet above the floor where the most

or no mist and damage the humidifier.

levels but the rest of the room will still feel dry.
