

Instruction

1.Products include:

A clothes rail with slide rails、 8 screws、 A installation manual

2.Product introduction :

1. Mounting Feet (On the Inner Slide Rail)

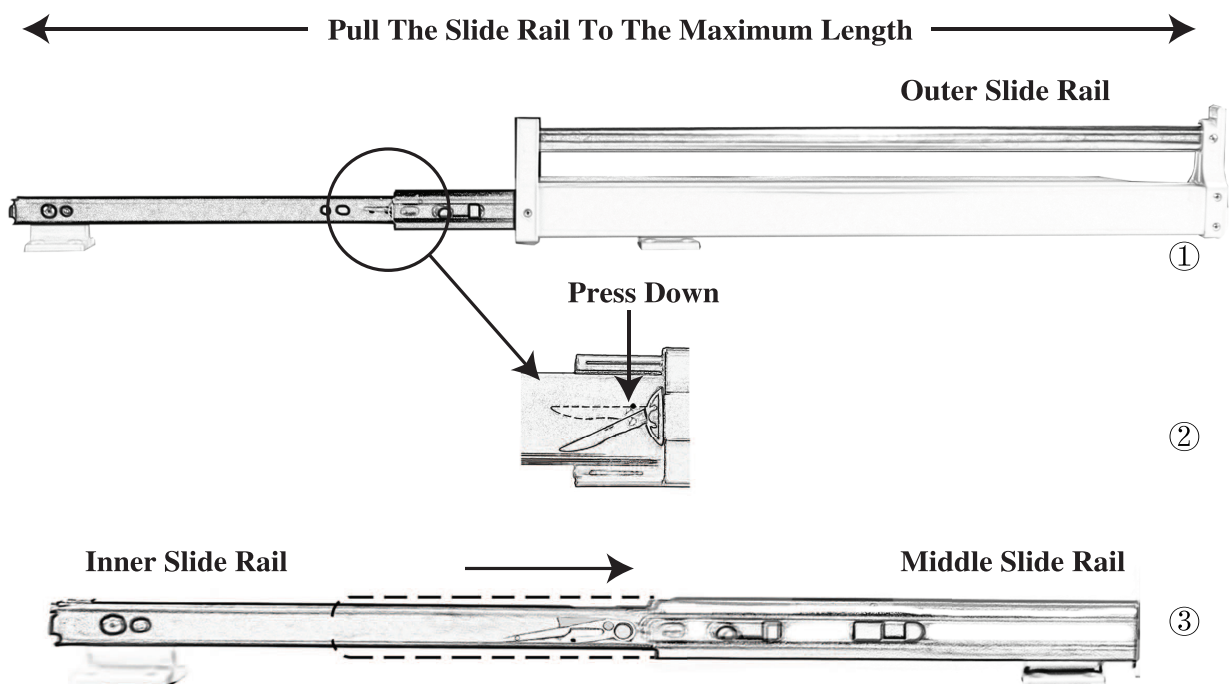

2. Sliding Rail

3. Clothes Rail

3.Steps:

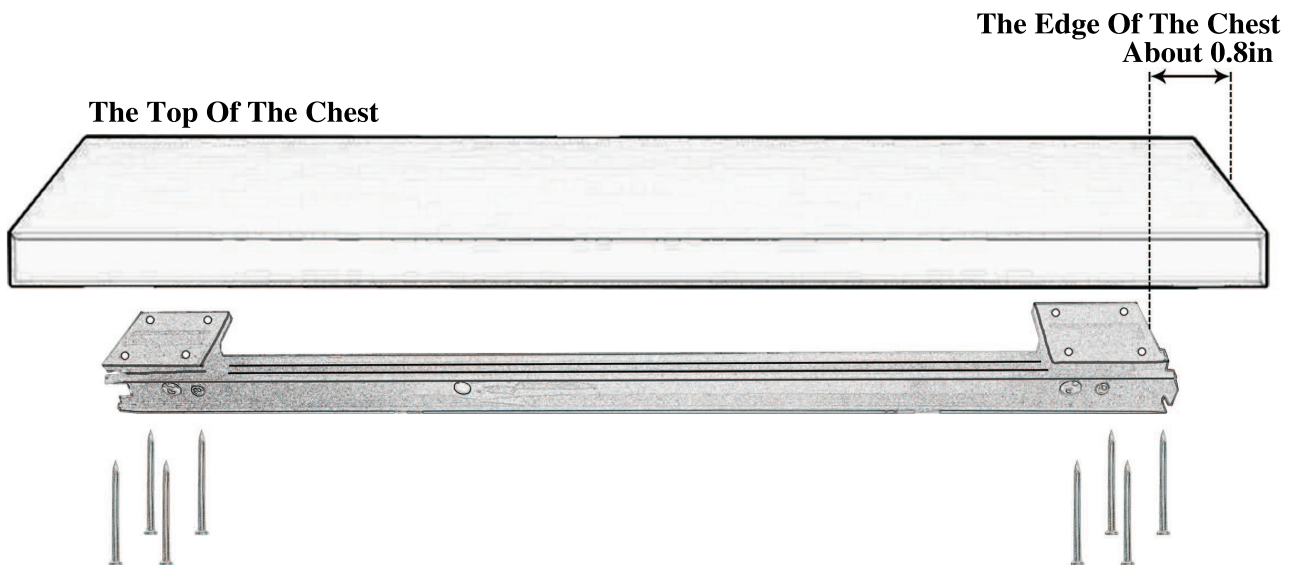

One: First of all, separate the inner rail from the middle rail.

- ① Hold the clothes rail with one hand, hold the mounting feet with another hand and pull them to the maximum length.
- ② There are two plastic clips between the connector of middle slide rail and the inner slide rail. Open one of them firstly. Hold the inner rail with one hand and press the plastic clip close to the edge of inner rail with your finger. Strongly suggest that your finger must against to the edge of the middle slide rail and keep still!
- ③ Hold the middle slide rail also close to the connector and then drag the middle slide rail.
- ④ Turn over the product and repeat the front steps to drag another side's middle slide rail. Then you can take the inner slide rail easily.

Two: Fixation

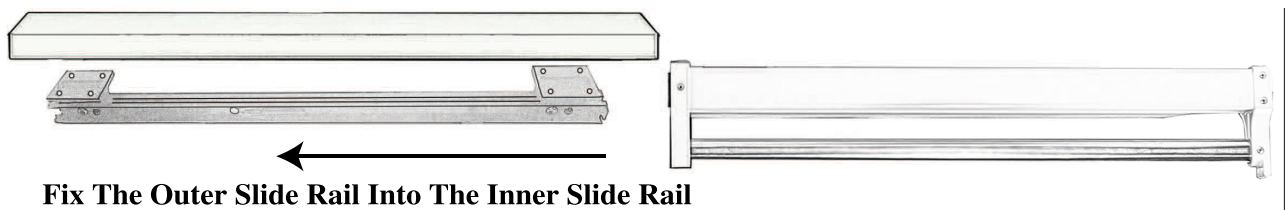

Fix the inner rail on the top of the chest. NOTE: 5mm gap between the edge of the chest and inner rail.

Three: Install the outer and middle slide rail

Fix the middle slide rail (with clothes rail and outer slide rail) into the inner rail.

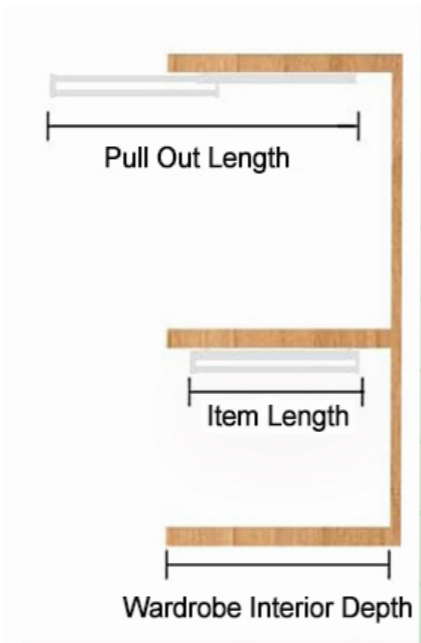

NOTE :(please install it again if the slide rail is not smooth after the installation).

Safety Warning

- Pinch hazard – Keep fingers and loose fabrics away from rails and joints. Stop if you feel resistance; do not force.
- Fall hazard (high mount) – When pulling out, steady the rack with one hand. Ensure hangers are hooked firmly. Remove clothes from the front, one by one.
- Load limit – Do not exceed the maximum weight (see manual). Overloading may cause breakage.
- Maintenance – Check screws and rails regularly. Tighten if loose.
- Child supervision – Do not let children operate the rack alone.
- Stop use – Immediately discontinue if you hear unusual noise or see bent parts.
