your wrist and arms

CENTER CAVITY

With a hole in the middle to relieve head pressure. Note: when sleeping on stomach, DO NOT put your whole face in the hole. It will cause uncomfortable breathing.

CONTOUR AREA

Eases the pressure of your shoulder when sleeping on side

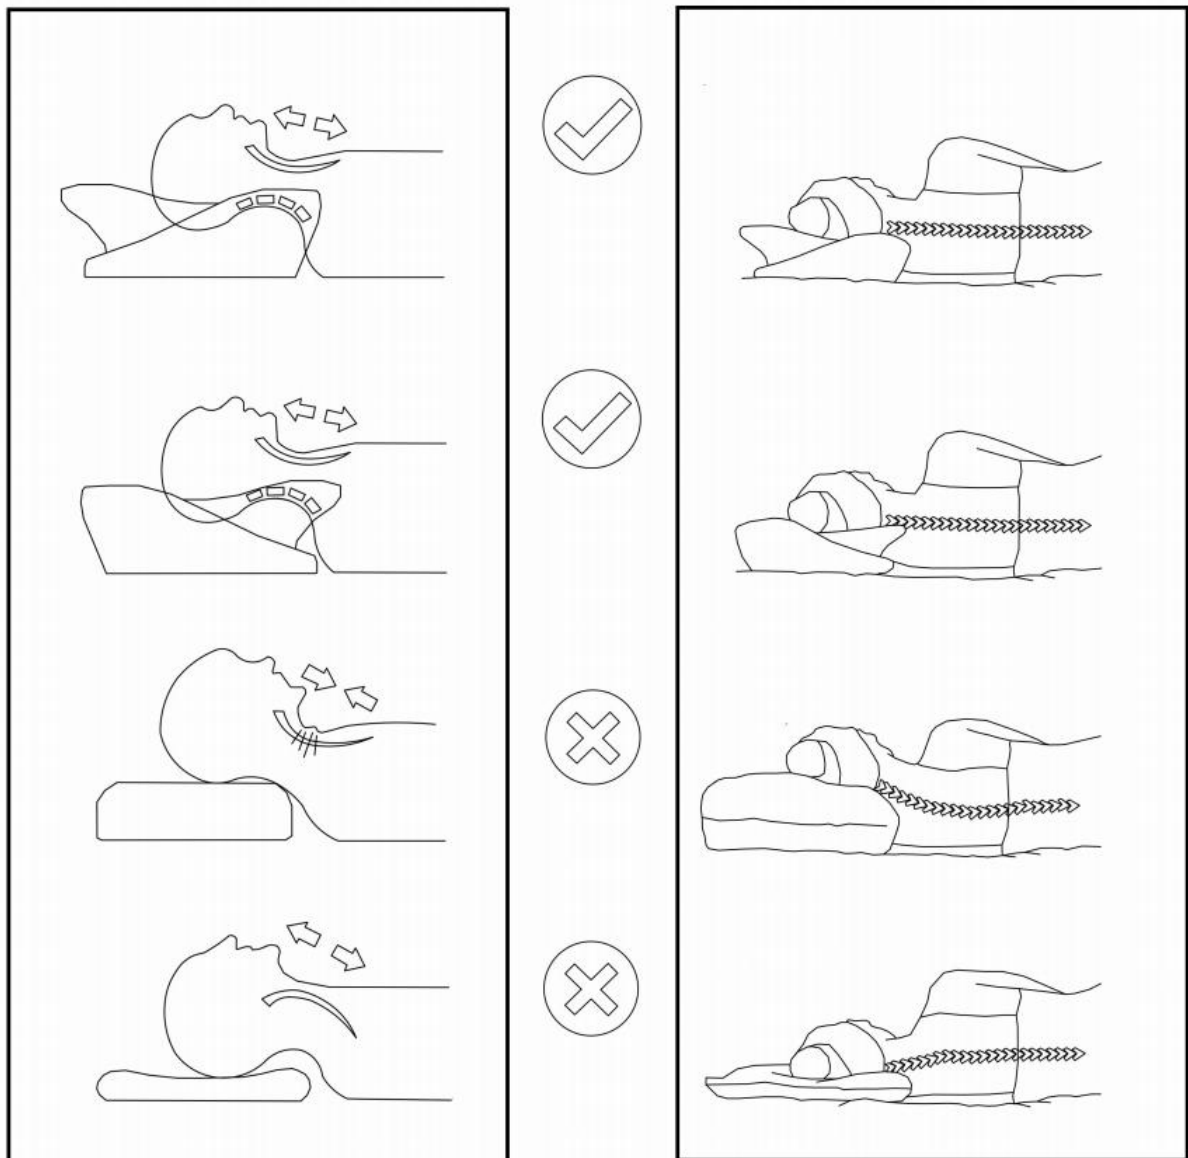

ARC SHAPE

Adapts to the head and neck curve, making your breathing smoother

ARM REST

Gently reduces pressure for your wrist and arms

Scientific height: healthy and comfortable

Pillow too high: easy to produce hunchback

Pillow too low: easy to cause cervical curvature

Product Material

Washable & Breathable Pillowcase

Pillowcase is made of hypoallergenic polyester fiber which is skin-friendly.

No chemicals contained.

Mesh cover in the middle of the pillow is very breathable and heat-relieving.

⊗**Please do not wash the memory foam core.** The pillowcase is hand and machine washable.
(Max. water temperature 104°F/ 40°C)

Please wash the pillowcase separately for better protection.

How to remove the pillowcase?

1. Untie the button in the middle
2. Unzip pillowcase
3. Remove the pillowcase

Compressed Vacuum Packaging

This pillow arrives rolled up inside of a plastic bag. Carefully open the plastic bag and take out the pillow. **Give it 5-30 minutes to slowly expand to its normal shape. Sometimes it may take up to 24 hours to fully expand due to the humid and cold environment.**

There may be a natural foam odor upon unpacking. If the smell bothers you, wash the pillowcase before use and let the pillow core air off outdoors or near an open window within 3~7 days. The odor will go away in a couple of days.

Due to the foaming manufacture process, the pillow might show small sized bubble like on the outside. This is a normal phenomenon.

NOTE :

TWO HEIGHTS: 4.1/4.9inch (PLEASE NOTE: Before using, please compare with the height of the pillows you usually use and confirm that the height is suitable for you.)

THIS PILLOW IS MODERATELY SOFT AND FIRM. THE FOLLOWING PEOPLE PLEASE SERIOUSLY CONSIDER WHETHER TO LEAVE THE CERVICAL PILLOW.

1. If you usually sleep with pillows that are too soft or too hard.
2. If it is hurting your neck or shoulder now.
3. For people with neck or shoulder injury, please seek advice from your medical consultant before using the pillow.
