If it is not, see “Connect a Push Button” on page 5 Safety	⚠ Before proceeding with the installation, please note the following safety warnings: • Always follow the manufacturer’s advice when using power tools and wear suitable protective equipment (e.g. safety goggles) when drilling holes, etc. • Before drilling holes in walls, check for hidden electricity cables and water pipes. The use of a cable/pipe locator is advisable if in doubt. What You Should Know Before Installation 1.Test the operating range you desire. Choose an electric outlet at the height of 3.3 feet at least and plug in the receiver and take the button outside the door to test if it can work well within the range you have chosen. 2.Set a desired music (different or same one) for transmitters before installation. For music setting, see Operating Instructions.Doorbells have been paired and set to a default chime (Ding Dong) before leaving factory.	3.Please do not install transmitter on metal doors since it is hard for the signal to transmit. 4.Please take out the battery insulating strip before using. ((As picture ①) 5.Ensure all surfaces are clean by wiping the installation area with a clean cloth. Please note that the sticker will have poor adhesion if you attach it to a dirty or uneven surface. Sunlight or rain will also affect the adhesion over a longer period of time.
