

Qevooon | Hammock With Net

210T Sturdy Parachute Nylon

Instruction

1. Wrap the strap around your selected tree.

2. Make one end of the strap go through the loop of the other end.

3. Pull the strap tightly to tie it to the tree.

4. You can wrap the strap more times as needed.

5. Unfold the hammock and buckle it up to a suitable loop of the strap.

How to hang the net and use the accessories?

1. Tip one end of Black Bungee Cord (Net String) to a loop in the net.
Note: Please use the correct strings as mentioned, or the net will be easily torn.

2. Tip the other end of the Net String to the tree. Repeat the same steps to hang up another side of the net.

3. Tip one end of Side String with white spots to the small loop on the right side of the hammock.

4. Find a suitable distance to plant a Sand Peg into the ground (press it with your feet) on the right side to the hammock, then tie the other side of string with white spots to the sand peg. Repeat the same steps to hang up another side.

THINGS TO KEEP IN MIND

- PLEASE REMOVE YOUR SHOES AND ANY SHARP OBJECTS IN YOUR POCKETS TO AVOID PUNCTURING AND RIPPING THE HAMMOCK.
- Keep away from the fire.
- Ensure the ground under the hammock is flat and without any hazardous debris such as rocks, sticks and sharp objects. And a protective cushion under the hammock is recommended for children to use for avoiding injury from accidental falling. (Fig.1)
- Do not hang the hammock over 2 feet. 12-20 inch is the optimal hanging height for avoiding injury from accidental fall. (Fig.2)
- Check the ropes at each side of the hammock to make sure that they are not twisted or knotted. (Fig. 3)

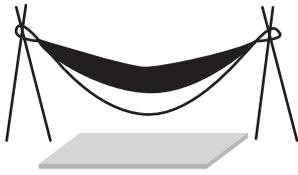

Fig. 1

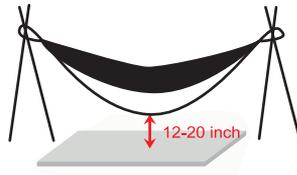

Fig. 2

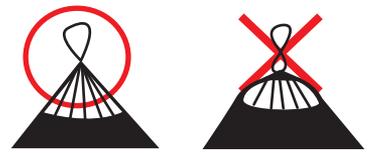

Fig. 3

- The selected trees or other supports should be strong enough to support you and without any sharp objects on to avoid damage to the straps.
- To balance the hammock, it's better to keep the same height of each end. (Fig.4)

Fig. 4

- You can sit or lie on the hammock but never try to stand on it for safety concern. (Fig. 5)

Fig. 5

- It's better to lie along the direction of the ropes to keep balance. Tilting too much can easily lead to falling from the hammock. (Fig.6)

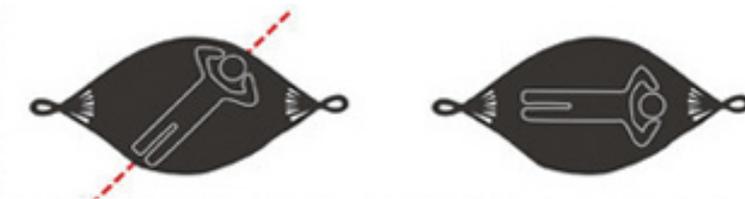

Fig. 6

- Do not swing the hammock too high for safety concern.
- **NEVER LEAVE CHILDREN UNATTENDED.**
- **BE SURE NOT TO EXCEED MAXIMUM WEIGHT LIMIT.**
