Instruction Manual

COFFEE & SPICE GRINDER

Model: SP-7412

Welcome to the Secura Family!

Congratulations on being the proud owner of your new Secura product. We believe in manufacturing only the highest quality kitchen, home and personal care products for our customers. We are a U.S.-based manufacturer and all our products meet strict standards for manufacturing, safety and performance.

We also believe in providing the best customer service and support in the industry. That is why we offer a two year warranty on this product that ensures your satisfaction - so you can enjoy it for years to come.

If you have questions or in the rare instance you need to file a warranty claim, please email CustomerCare@thesecura.com. For fastest response, please include the product name and model #, proof of original purchase, complete contact information, and detailed information about the issue, including pictures when applicable.

Your feedback and suggestions are also important to us, so please email them to us at CustomerCare@thesecura.com.

COFFEE & SPICE GRINDER

IMPORTANT SAFEGUARDS

To reduce the risk of fire, injury or electrical shock along with extending the life of your electrical appliances, please read and follow all of the information in this manual before using and save it for future reference.

Anytime you will be using or handling an electrical appliance of any type, safety precautions should be taken at all times. This includes, but is not limited to, the following:

1. Before using your new grinder, read all instructions and safety precautions.
2. This grinder is for personal and indoor use only. Do not use outdoors. Do not blend hot liquids. Do not use the grinder in any other manner than its intended use.
3. Exercise care with the cord. It should never rest on or directly over a hot surface. Do not let cord hang over edge of table or counter.
4. Do not place the grinder near or on a heated oven, an electric or gas burner, or any other hot surface.
5. A short power supply cord is provided to reduce the risk of injury from becoming entangled in or tripping over the cord.
6. An extension cord may be used with care if the marked electrical rating of the extension cord is equal to or greater than the electrical rating of the grinder.
7. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Contact the manufacturer at their customer service telephone number for information on examination, repair, or adjustment. Please contact our customer service department at 888-792-2360 or CustomerCare@thesecura.com.
8. Before each use, visually inspect the bowl and the grinder base to ensure it is free of any foreign objects.
9. The grinder blades are sharp and should always be handled with extreme care.
10. Container must be properly in place before operating appliance. To avoid potential injury to user or damage to the grinder, the stainless steel bowl must be in the locked position on the grinder base with the lid and clear top cover

SECURA®

- fully seated before operating. Make sure the clear top cover is securely fastened to the bowl.
11. Once the lid and clear top cover are securely in place, press down in the center of the lid with firm even pressure to operate.
 12. Keep hands and utensils out of container to reduce the risk of injury to persons or damage to the mixer.
 13. When the grinder is not in use, a non-metal scraper may be used to gently remove food from the inside of the bowl.
 14. To extend the grinder's lifespan and avoid motor damage, do not run the grinder continuously for longer than 30 seconds in a cycle (30 seconds when using the grinder bowl, 20 seconds when using the chopper bowl). For best results, coffee beans should be ground by pulsing the grinder in 4 to 8 second bursts. Pulsing allows the beans to be ground more thoroughly, keeps them from retaining heat, and helps release maximum flavor and aroma.
 15. Never add to container while appliance is operating.
 16. Turn the appliance OFF, then unplug from the outlet when not in use, before assembling or disassembling parts and before cleaning. To unplug, grasp the plug and pull from the outlet. Never pull from the power cord.
 17. To protect against risk of electrical shock do not put appliance, cord, plug in water or other liquid. Do not place the grinder in the dishwasher.
 18. Only use Secura brand parts made specifically for this model.
 19. To avoid injury to the user or damage to the grinder, do not attempt to disable the Cover interlock mechanism.
 20. This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they are closely supervised and instructed concerning use of the appliance by a person responsible for their safety. Close supervision is necessary when any appliance is used by or near children. Children should be supervised to ensure that they do not play with the appliance.
 21. In the event service is required for this product, please contact our customer service department at 888-792-2360 or CustomerCare@thesecura.com.
 22. The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock or injury.

COFFEE & SPICE GRINDER

**CAUTION:**

To avoid circuit overload, do not operate another high wattage appliance on the same outlet or circuit.

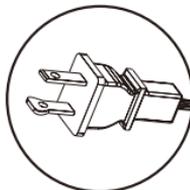

Always follow basic safety precautions when using any electrical products, especially when children are present.

SAVE THESE INSTRUCTIONS For Household Use Only

Additional Safeguards and Instructions

Polarized Plug

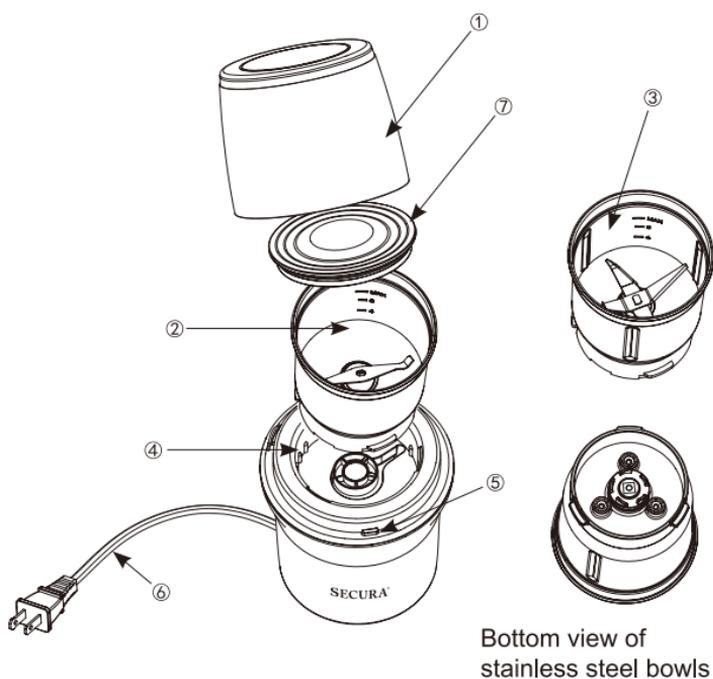

Your new grinder has a polarized plug with one prong wider than the other. To reduce the risk of electrical shock, the plug will only fit in an outlet one way. If the plug does not fit into the outlet, flip the plug over and try again. If it still does not fit, stop and contact a licensed electrician. Do not force plug into the outlet or modify the plug or outlet in any way.

GRINDER PARTS

- | | |
|-----------------|------------------------------|
| 1. Lid | 5. Cover interlock mechanism |
| 2. Grinder bowl | 6. Power cord |
| 3. Chopper bowl | 7. Clear top cover |
| 4. Grinder base | |

Grinder bowl is designed for grinding coffee bean and milling spices.

Chopper bowl is ideal for chopping food such as nuts, onions, vegetables, fresh fruits, dried fruits, garlic, herbs, and dry bread.

COFFEE & SPICE GRINDER

BEFORE USE

After unpacking the grinder, be sure to remove all packing materials and clean the grinder thoroughly. The blades are extremely sharp, so please handle with care. Wash the bowls, lid and cover in warm soapy water and dry thoroughly. Wipe down the exterior of the grinder using a soft damp cloth. Do not use harsh abrasives or scrubbing materials as they will damage the grinder.

SECURA®

USAGE INSTRUCTIONS

For Grinding Coffee Beans:

1. With the grinder base on a stable, level surface, lock the grinder bowl into the base by turning clockwise. The grinder will not operate unless all parts are securely in place.
2. Fill the bowl with the desired quantity of beans up to the max line on the side of the bowl. Do not use more than ½ cup (2.5 ounces) of beans. Overfilling may damage the grinder.*
3. Insure the inside of the lid and clear top cover are free of ground coffee or other residue.
4. Secure the cover on top of the grinder bowl, then place the lid over the grinder bowl.
5. Once the lid and clear top cover are securely in place, press down in the center of the lid with firm even pressure to operate.
6. For best results, coffee beans should be ground by pulsing the grinder in 4 to 8 second bursts for up to a 30-second cycle. Pulsing allows the beans to be ground more thoroughly, keeps them from retaining heat, and helps release maximum flavor and aroma.
7. To protect the motor, do not run the grinder continuously for longer than 30 seconds in a cycle (20 seconds when using the chopper bowl). After 3 cycles, allow the grinder motor to return to room temperature before continuing. The grinder has a built-in heat sensor and will shut down if the motor begins to overheat. If the grinder stops working, please allow the motor to cool down before operating.
8. Once the grinder is turned off and the blades have come to a full stop, unplug the coffee grinder.
9. Remove the lid. Unlock the bowl by turning it counterclockwise. After removing the bowl from the grinder base, carefully remove the cover to empty the contents.
10. With the grinder unplugged, a non-metal scraper may be used to gently free any food from inside the bowl.

*Some coffee makers have requirements or recommendations regarding the best grind size to use. Always follow your coffee maker's instructions for optimal results.

COFFEE & SPICE GRINDER

You can experiment with your grinder to determine what type of grind works best for the type of beans, brand of coffee maker, and amount of grounds you are using.

In general, coarsely ground beans (a shorter processing time) have less surface area and will take longer to release their flavor. Finely ground beans (a longer processing time) have more surface area and release flavor faster.

To enjoy fresh, robust, and flavorful coffee, do not grind more beans than needed at the time. Coffee beans usually become stale and less flavorful faster when stored as grounds. A large pot coffee maker may require up to two chamber of coffee grounds for maximum capacity brewing.

Coffee beans generally retain their peak freshness for up to two months when stored frozen in a dark, airtight container and may be ground immediately upon removal from the freezer.

For Grinding Herbs and Spices:

Your grinder can also be used to grind dried herbs, spices, and seasoning blends. Freshly ground seasonings often impart a more intense flavor and give you the opportunity to create unique blends to suit your palate.

Follow the above steps using your desired herb or spice. Spices that grind the best include peppercorns, whole all spice, coriander seeds, mustard seeds, celery seeds and flax seeds.

The maximum amounts for herbs and spices vary by type. For harder spices, such as coriander seed or cinnamon bark, the maximum is 1 to 2 Tablespoons (0.5 to 1 ounce). For softer items, such as peppercorns or allspice berries, the maximum is 2 to 3 Tablespoons (1 to 1.5 ounces).

NOTICE

Grinder cup (2 blades) should only be used for dry ingredients. Liquid and oily spices like cinnamon or cloves can discolor the lid. Hard grains, such as rice or rye, and other hard foods may overheat the motor, pit or crack the lid, or cause other damage and should be avoided.

For Chopping Foods:

The chopper bowl can be used to chop foods such as nuts, onions, chocolate, fresh herbs, liquid ingredients or dried fruits and vegetables, onions, garlic and dried bread. Chopper cup (4 blades) may be used to mix moist / liquid ingredients. However, moist / liquid contents should be poured out after mixing is completed. Follow the above steps using the chopper bowl.

SECURA®

Extremely hard nuts or other hard foods may cause the motor to overheat, pit or crack the lid, or cause other damage and should be avoided.

This grinder should not be used to grind gummy foods. Doing so may damage the grinder motor or blades. The grinder is not designed for making any type of paste and attempting to do so may damage the grinder.

COFFEE & SPICE GRINDER

APPLIANCE CLEANING AND CARE

- Before cleaning, always unplug the grinder from the power outlet.
- Clean the bowls, lid and cover after each use. This will provide the best and most flavorful results and avoid cross-contamination of flavors.
- The stainless steel bowls, lid and clear top cover are top rack dishwasher-safe. However, washing in hot soapy water is recommended. Rinse and dry after washing. Use care when cleaning the blades as they are very sharp. A small, soft bristled brush can be used in order to remove particles that are wedged in the grinder.
- Use a soft, damp cloth to wipe down the grinder base.
- Never use harsh chemicals or abrasive cleaners on the grinder or its parts.
- DO NOT put the grinder base in the dishwasher or immerse it in water.
- If ingredients become lodged under the blades, remove the lid and cover, empty the bowl, replace the cover and lid and pulse for 1 to 2 seconds to help dislodge the remaining particles.
- If food odors remain in the bowl after cleaning, fill the bowl with baking soda, replace the cover and allow it to sit overnight. Once the baking soda is removed, the grinder should be free of odors. Cleaning the grinder thoroughly and immediately after each use will reduce the chance of lingering odors.

Manufacturer's Limited Warranty

The Manufacturer of this product warrants to the original purchaser of this product that this product will be free from defects in material and workmanship under normal use and service for 2 years from date of purchase. Manufacturer will, at its option, repair or replace with a new or refurbished product. The Manufacturer reserves the right, before having any obligation under this limited warranty, to inspect the product, and all costs of shipping the product for inspection and warranty service shall be borne solely by the purchaser.

For the fastest processing of a warranty claim, the Purchaser should e-mail CustomerCare@thesecura.com and include the product name and model #, proof of original purchase, complete contact information, and detailed information about the issue, including pictures when applicable.

The manufacturer's limited warranty is valid only in accordance with the following conditions:

1. The product is purchased directly from the Manufacturer or an authorized reseller or distributor.
2. Only the original purchaser is covered by this warranty. This warranty is not transferable.
3. Product is for household use only. This warranty is void if the product is used in a commercial or institutional establishment.
4. This warranty does not cover normal wear and tear, or damage caused by misuse, abuse, negligence, accident, acts of nature, or unauthorized modification or repair.
5. Purchaser must present acceptable proof of purchase for the product.
6. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
