

## ANY ISSUES

Before throwing away this piece of paper, please inflate your new GoFloats® raft! If there are any issues with your float on arrival (leaks, missing parts, etc.) we will send you a FREE replacement\*. Contact us at [info@GoFloats.com](mailto:info@GoFloats.com) describing your issue and we will get back to you right away. We stand behind our GoFloats® products 100% and want to ensure you get the full enjoyment that you paid for. Now, GoFloat Yourself!

\*Free replacement applies to US customers only. International customers, please contact the retailer from which you purchased the float.

## CARE INSTRUCTIONS

The better you take care of your raft, the longer it will last. The rafts are made from industry leading raft-grade vinyl, but jumping on them, pulling on the heads / limbs / wings / etc. can cause rips or tears in the material.

- Leaving the raft out in the sun for prolonged periods of time can cause discoloration and weaken the material.
- Always dry before storing.
- Avoid dragging your raft out of the water.
- If used in chlorinated pools or salt water, rinse with fresh water after each use to lengthen the lifespan of the raft.
- If a hole appears in the raft, use the included patch kit to seal the leak (instructions on patch kit)

## RAPID VALVE® SYSTEM

### INFLATION

To inflate, pull out the first stopper so that it exposes the 1-way inflation valve, but the main stopper will still be in place. Connect your pump or use your mouth to inflate. The design only lets air go into the raft and not out.

### 3 WAYS TO FILL!

#### ELECTRIC PUMP

Secure pump hose to inflate valve and turn on.

#### HAIR DRYER (COOL AIR)

Hold hair dryer to valve and turn on.

#### MOUTH

One way valve allows for air to enter but not escape.

TOP VALVE STOPPER

### DEFLATION

To deflate, simply pull out the second larger stopper on the Rapid Valve® System which quickly releases the air in the raft. Most pumps also have a reverse feature which can help get all of the air out of the raft so it can be pack away in small spaces.
