HOW TO WEAR

Both earbuds are marked with a L or R to indicate the appropriate ear. The earbuds are differently angled to fit either the left or the right ear. The proper fit will ensure the best sound quality. Insert the earbud in your ear and rotate slightly clockwise (as shown in image below).

**1**

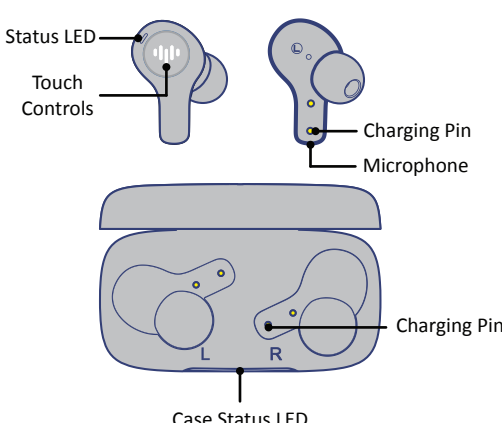

Insert earbud into ear canal

**2**

Slightly rotate earbud in ear canal

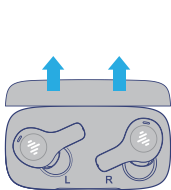

2

PRODUCT OVERVIEW

HOW TO PAIR

Take both earbuds out of the charging case to pair to your device; the earbuds will automatically power on. With the earbuds powered on, go to your Bluetooth setting on your audio device and select 'iLuv TB150'. Once paired you're good to go!

**1**

Take earbuds out of charging case

**2**

Go to Bluetooth setting on audio device

**3**

Select iLuv TB150 in Bluetooth setting

1

HOW TO FIT

Select the desired eartip size (x-small, small, medium, large) and place it onto the earbud. Once selected, firmly push the eartip onto the earbud. There should be no gap inbetween the eartip and earbud. The medium size eartips are premounted onto the earbuds.

**1**

Place eartips onto the earbud

**2**

Firmly push eartip onto the earbud

3

BATTERY PLAYTIME

The TB150 earbuds will provide a playtime of 21 hours. Get up to 7 hours on a single charge and an additional 14 hours from the included charging case. For quick charge, place both earbuds back into the charging case for 20 minutes and get 2 hours of listening time. A full charge for the earbuds and charging case will take 2 hours.

7 hrs

Single Charge

21 hrs

Total Charge with Case

2 hrs

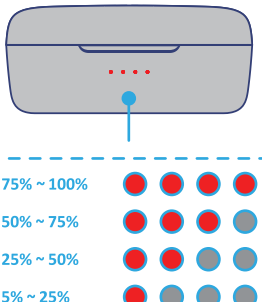

Rapid Charge 20 mins

Playtime measured on a single charge at an 80% volume level

4

BATTERY STATUS

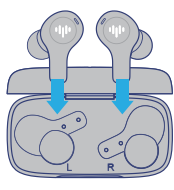

The charging case is equipped with LED battery life indicators which helps identify the battery level. The LED will stay lit when charging is at full capacity. Battery level percentages listed below:

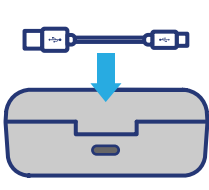

5

HOW TO CHARGE

Please follow the instructions below to properly charge the earbuds and charging case. The LEDs on the earbud and charging case will signify the status of charge; the earbud LEDs will be off when fully charged while the charging case LEDs will all be lit.

**Earbuds**

Place both earbuds into the charging case and close the case lid

**Charging Case**

Plug the Type-C USB cable to the charging case and a power adapter

WATER RESISTANCE

The earbuds are rated IPX6 water resistant. They are designed to be sweat and weather resistant but aren't meant to be submerged under water. The IPX6 is not a permanent condition and the resistance may decrease as a result of normal wear.

CAUTIONPlease do **NOT** do the following:

Swim or shower with earbuds

Submerge earbuds under water

Place wet earbuds into charging case

12

REPLACEMENT PARTS

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the use is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Hereby, iLuv Creative Technology declares that the radio equipment type TB150 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.iLuv.com

Caution: The device paired with this iLuv product may emit an involuntary alert such as government alerts, AMBER alerts, emergency alerts, etc. Please note that these alerts will prompt a message at a high volume which is dictated by the operational system of the device. These alerts maybe disabled through the device settings.
