

COLOR-CHANGE

- Color change will start at approximately 59°F (15°C), but best results occur if the ice water is chilled to approximately 32°F (0°C) or colder.
- Only certain dolls change color.
- All Lil Sisters will change color and will not retain water from the bottle.
- Color change will only work on certain parts of the doll's body or accessories. Not all included accessories change color.
- If color change does not work properly or quickly, the temperature of the doll's body may be too close to the temperature of the water.
- Color change temperatures may vary according to weather conditions.
- The color-change effect of the doll's body has a lengthy, but limited lifespan.

IMPORTANT INFORMATION

- Before beginning, cover the play area to protect from possible water damage.
- Your doll with either cry, spit, pee or change color. Collect them all to see each feature!
- For best results, fill the bottle and feed the baby two times.
- Do not place the doll in extremely hot water.
- Do not feed the doll extremely hot water.
- An adult must be present when children are playing with water.
- Do not store the dolls in direct sunlight for extended periods of time.
- Exposure to sunlight may deactivate color change feature.
- Squeeze out all water from the bottle and the baby after each use.
- Thoroughly drain the doll on a dry towel in a well-ventilated area after use and before storing.
- Air dry the doll only. Do not place in the dryer or subject to excessive heat.
